

UNIVERSITY
OF VETERINARY MEDICINE
BUDAPEST

SUMMER SCHOOL OF THE UNIVERSITY OF VETERINARY MEDICINE BUDAPEST

ARE YOU INTERESTED IN MEDICAL SCIENCES?

**DO YOU WANT TO IDENTIFY
AND CURE ILLNESSES?**

DO YOU LIKE ANIMALS?

**HAVE YOU EVER CONSIDERED BECOMING
A VETERINARY DOCTOR?**

**If yes, let us invite you to take part in our
unforgettable Summer School in the
heart of Budapest!**

It is not always easy to decide which profession is best for you. If you are considering becoming a veterinarian, let us help you with a one-week programme to show you what university studies are like as a vet student and life as a vet!

By the end of our summer school, you will have a better understanding on what vets do and have a chance to try yourself in a number of vet-related activities (see the list below).

As a plus, the programme takes place in vibrant and cosmopolitan Budapest to ensure that you are not only getting to know an exciting profession but also one of the most fascinating cities in Europe!

We welcome students with a strong interest in science subjects and in the field of veterinary science. There is no application criteria to join our summer school. Students from the last two years of high school (and after finishing high school studies) with a good command of English from all around the world are welcome!

DETAILS OF THE SUMMER SCHOOL

DATE:	14-20 August 2017
ACCOMODATION:	Dormitory of the University
PRICE:	450 euro/student
APPLICATION DEADLINE:	28 July 2017

THE PRICE INCLUDES

- **Transportation** (between airport and dormitory, and local transportation)
- **Meals** (breakfast, lunch and dinner every day)
- **Classes**
- **Free time activities**
- **Tickets** (e.g. zoo)

DRAFT PROGRAMME

DAY 1: Get to know your group and mentors! These people will be with you for the week and you will have a chance to experience all that the veterinary university and **Budapest** has to offer for you with them!

DAY 2: On the second day, we will show you our **230 year old university**. You will see how the departments and classrooms look like, and even better than that: you can wonder around in our fantastic university park. At the **small animal clinic** you can sneak a peak at operations and minor procedures being done to our furry patients.

In the afternoon at a **sightseeing** tour you will see why Budapest is one of the most popular tourist destinations in Europe. In the evening one of the famous Budapest **escape rooms** will challenge you and your classmates.

DAY 3: **Chemistry** is not always the most popular subject in high school but with a little creativity it may surprise you. In our **laboratory** we will show you how Chemistry can be interesting and fun!

Probably we all agree that dogs are loyal friends to us. However, as a vet you will need to 'get your hands dirty' in order to cure them. Participating in the dissecting process will give you hands on experience with a **dog's anatomy**.

DAY 4: Doesn't matter if you are a horse enthusiast or not, the **Lázár Equestrian Park** is surely a place you will find interesting. You can get a better understanding of **traditional Hungarian breeds**, have a ride in the park and enjoy traditional Hungarian meals there.

DAY 5: Have you ever seen piranhas being fed? If not, here is your chance. The **Tropicarium** in Budapest houses hundreds of **exotic animals** (alligators, exotic birds, sharks etc.). With a tourguide from our exotic animal department you will take a close look at these fascinating creatures.

In the afternoon join us for a rare dissection at our **exotic animal department** where we have had all kinds of animals cured in the past years.

DAY 6: The **zoo** is always interesting for future vet students, especially if a **professional guide** helps to see what you may not have noticed earlier in other zoos. Let us show you the animals from a little closer!

Have you ever tried finding a vein on a dog's leg or put them on an IV? If not, you can try it in our **skills lab** where our colleagues will help you practice!

In the evening we will say goodbye and have a **BBQ party** to make parting less sad! :)

If you want to participate in a summer camp filled with animals and adventures, do not hesitate to contact us:

vetmed@univet.hu or **+36-1-478-4282**.
