GENERAL INFORMATION

A BRIEF HISTORY OF VETERINARY EDUCATION IN HUNGARY

In 1787, shortly after the foundation of the world's first veterinary school (1762, Lyon) a "Chair for Animal Healing" was established at the Faculty of Medicine in the town of Pest (now an area of the city of Budapest) to provide students of medicine and surgery with basic knowledge of animal diseases and their management, an integral part of a general practitioner's activity at that time.

In the early 19th century, the rapid expansion of the traditional horse and cattle breeding on the Hungarian plains called for adequate institutional development. Accordingly, in 1851 the Chair for Animal Healing became independent from the Medical Faculty as the "Royal Institute of Veterinary Medicine". In 1899, its status was changed to that of a Royal College with the right to issue the D.V.M. diploma (Doctor Veterinariae Medicinae). As an independent College, this school earned an international reputation in the first half of the 20th century. From 1960 it obtained the status of an independent University.

As a part of the countrywide reorganization of higher education in 2000 in the University became the Faculty of Veterinary Science, Budapest of the newly founded Szent István University. From summer 2016 the school regained its independence, thus the former name University of Veterinary Medicine Budapest applies. It is further on a state university and the program has been continually supervised and accredited by the Hungarian Accreditation Board.

International Accreditation

In 1995 the veterinary school was internationally accredited by the European Association of Establishments for Veterinary Education (E.A.E.V.E.). The follow-up visitations took place in 2004 and 2015 with a positive outcome.

The accreditation of the Budapest veterinary school was reinforced by the F.V.E. (Federation of Veterinarians of Europe). The Accreditation Report concludes: "...the University of Veterinary Science can claim a proud position among its European counterparts. Its young graduates need not be afraid to compete with their European colleagues for their knowledge and practical skills." Hungary is since 2004 a full member of the European Union means acceptance of degrees within which the EU and their equivalence with degrees from other EU-countries. The Budapest-diploma is accepted in addition to EU-countries in several others as well.

The preparation of the American Veterinary Medical Association (AVMA) accreditation is in progress. After obtaining it, graduates will be able to get their license in the US and Canada. Until that graduates need to complete a board exam in Canada or the US, for a residency and to practise in North America.

FACTS AND FIGURES

The University of Veterinary Medicine Budapest, as appropriate for a country with a population of 10 million, is the only veterinary school in Hungary. Current enrolment is about 100, 120 and 180 students for the Hungarian, German and English programs, respectively. Our institute is a public university supervised and financed by the Hungarian State.

LIBRARY AND MUSEUM

The Veterinary Science Library, Archives and Museum has a rich collection. Its historic library with 16th-19th century books, the university archives and the museum of veterinary history are particularly valuable. Besides, it is a modern information centre with current journals and books in veterinary science and biology in printed or electronic format, an online catalogue, a digital library, large international databases (such as CAB Abstracts, FSTA, Zoological record, Web of Science etc.) and a dynamic homepage. A computer room, printing and copying facilities are also available.

CAMPUS AND FIELD STATION

The campus is located in the central area of Budapest, near to one of the main railway and subway stations, easily accessible by public transport. The main Field Station of the school is located in Üllő, ca. 10 km from the boundary of the city. It comprises an Experimental Institute for biotechnology, a living genebank for preservation of old Hungarian breeds of farm animals, horse stables with a riding-school and hippodrome, a Large Animal Clinic – opened in Summer 2001 and a unique Horse (Equine) Clinic with its horse isolation and bone surgery facilities.

Beside the daily routine work, the Clinic is used for practical training. The University operates a shuttle-service between the Campus and the Field Station. In 2006 an up-to-date Small Animal Clinic was opened to provide students, staff and clients with 21st-century facilities for diagnostics and treatment.

THE ENGLISH-LANGUAGE PROGRAM

The English-language program at the University of Veterinary Medicine Budapest was instituted in 1992 for students with a working knowledge of English. The English-language program begins in early

Statement of Non-Discrimination

The University of Veterinary Medicine Budapest does not discriminate on the basis of race, colour, national or ethnic origin, religion, sex, marital status, age or handicap.

September each year. The curriculum for veterinary medicine takes five and a half years, parallel to the standard curriculum found in most European veterinary programs. During the first two (preclinical) years students study Anatomy, Histology, Embryology, Biology, Chemistry, Physics, Zoology, Physiology, Biochemistry, Ethology, Agrareconomics, Botany, Biomathematics and Computer Application. English, Latin and Hungarian languages can be chosen as optional courses. During the next three (clinical + paraclinical) years, the curriculum includes Animal Breeding, Pathology, Pharmacology, Toxicology, Microbiology, Pathophysiology, Parasitology, Animal Nutrition, Veterinary Medicine, Surgery, Obstetrics, Food Hygiene, Forensic Veterinary Medicine, Animal Hygiene, Epizoology and State Veterinary Medicine. The 11th (practical) semester includes practical work at the University Clinics and university-associated institutions.

Practical work at the school's Field Stations and State Farms as well as with practitioner veterinarians is part of the curriculum. After the clinical rotation students have some time to prepare for the state exams. The diploma-issuing ceremony is held in February.

The entire curriculum (divided into core subjects and electives) consists of more than 5000 hours, a curriculum standard for the European Community. Before the conclusion of the degree program the students must submit a thesis and take a state examination.

Hungary is a full member of the European Union. The degree received at the University of Veterinary Medicine Budapest is accepted automatically by the member countries of the Union and in several countries of the world. Graduates of our English-language program report equal chances compared to graduates holding degrees from their own countries.

APPLICATION AND ADMISSION REQUIREMENTS

GENERAL REQUIREMENTS

The University of Veterinary Medicine Budapest seeks students with a high school leaving certificate, good command of English, and strong motivation to study and practice veterinary medicine. The entrance examination aims to test (in oral and written form) knowledge in Biology, Chemistry, competency in the English language in general and in relation to academic subjects also.

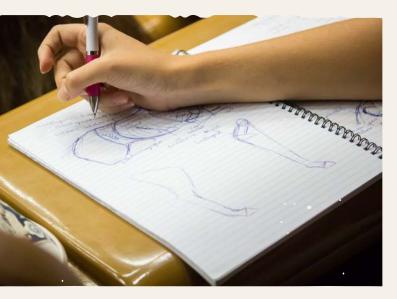

APPLICATION PROCESS

Applications are accepted on a rolling basis from 15th October until 30th June. Documents need to be sent to your officially appointed local representative (see list at www.univet.hu/en/education/admission/local-representatives/). If you do not have a local representative, you can send the documents via email to the vetmed@univet.hu email address.

You need to complete the application latest 30th June, but not later than two weeks prior to the chosen entrance exam date. From 1st of July the so called "post admission" period starts. Please note that available places are limited.

Applications are considered to be complete only if the following two criteria are fulfilled:

- Application documents are sent
- Application fee (EUR 200) is paid either to the local representative or in case your don't have one, to our partner: Global International Studies (see bank details on page 8)

APPLICATION DOCUMENTS TO SUBMIT

(All documents need to be sent in English or in an authorized English translation).

1. Completed Application Form

The application form is available at our webpage: https://univet.hu/en/education/admission/application-and-admission-requirements/

2. Secondary School Leaving Certification from an accredited secondary school. The school leaving certificate is a necessary prerequisite for starting studies. Those who are in the last year of their secondary school studies when applying can also apply but only with the obligation to present their certifications before enrolment.

3. Curriculum Vitae in English

- 4. Medical Certificate Certification of physical and mental capability of the applicant issued by a general practitioner. You can find the sample of the certificate on our webpage: https://univet.hu/ en/education/admission/application-and-admission-requirements/ or at the end of this brochure.
- 5. Copy of Passport / ID with your personal data.
- 6. Letters of Recommendation are welcome. Letters in English from secondary school principal or science instructors are preferred. Particularly valuable are letters of recommendation from persons who studied at or graduated from our school.
- + 1 Transcript of records only for applicants with relevant preliminary studies, for example: IB program, Cambridge diploma, French BCPST program, academic background in natural sciences, etc. ("transfer students" – see below)

All application documents should be sent electronically to the local representative or (in case there is no local representative in the country of the applicant) directly to the University to the vetmed@univet.hu email **address**.

4

TRANSFER FROM OTHER UNIVERSITIES

The University of Veterinary Medicine Budapest, as a member of the international academic community recognizes studies at other accredited Universities from any part of the world particularly if these included natural sciences.

Accordingly, applicants who have completed a section of the curriculum at another University in any field of science might be admitted upon the study of the submitted material (transcripts and references) without an entrance examination! Subjects of previous studies identical or similar to those contained by our veterinary curriculum can be applied for acceptance. Preliminary evaluation is made on the basis of submitted documents. Original syllabi of your previous/present studies indicating the content of the course, the number of classes and credits earned has to be sent by your school directly to the Students' Secretariat in Budapest within 3 months. If a sufficient number of exemptions are approved, the time of studies can be shortened and - if prerequisites are met - a start in February may also be possible. Please note: prior to entering the 3rd year of the Budapest curriculum all exams from the previous two years have to be passed! Courses you are exempted from will be marked as such on your record, i.e. without a grade or credit point.

Further exemptions from the entrance examination

In addition to transfers from other universities, exemption from the entrance examination can be obtained if the student holds an equivalent of the British A-level-certificate with high scores in Biology and Chemistry. If only one of these subjects has satisfactorily been completed, an entrance examination from only the other subject is possible. Moreover, the basic study section of French veterinary schools ("Classe Preparatoire BCPST") also entitles the applicant to be accepted without an entrance examination.

ENTRANCE EXAMINATION

After the University reviews the submitted application documents, it determines whether the applicant appears to be qualified to take the entrance exam or not. After acceptance of the application, the applicant choses an entrance exam date (either through the local representative or via email at the vetmed@univet. hu email address). Exam registrations are only considered to be official if the EUR 250 exam fee is paid either to the local representative or in case your don't have one, to our partner: Global International Studies (see bank details on page 8).

Entrance exam structure:

Written exam – simple and multiple choice questions (50%):

- Biology
- Chemistry

General English and academic terminology Oral interview (50%):

Motivation of the applicant

- Discussion about the student's academic background
- All other topics that are relevant to form an informed decision

Examinations are arranged worldwide and online between March and July. For the time and place of entrance exams please visit our website. Further rounds of entrance examinations will be organized in August depending on the number of vacancies.

EVALUATION

The evaluation of the Entrance Examinations will be made by the Admission Board on the spot of the competitive entrance exam or within a couple of days. Decisions about transfer applications are made at the beginning of each month. Applicants will be notified within two weeks about the decision of the Board. Once admitted, the Students' Secretariat will provide you all necessary documents for the student visa and loan application in your home country.

The admission is valid only to begin studies in the academic year you applied for.

One-Year Pre-Application Pre-Medical (veterinary) Program

The Pre-Medical Program of McDaniel Europe – The Budapest Campus of McDaniel College – prepares students who require additional instructions or review in sciences and English language to successfully pass the entrance examinations for the regular degree program in Veterinary Medicine. It must be understood, however, that completion of this program does not guarantee admission to the degree program at the University of Veterinary Medicine Budapest.

Please, contact at premed@studyhungary.hu for a detailed brochure.

https://www.medicalstudyhungary.com/

ONE-YEAR FOUNDATION PROGRAM IN ENGLISH

McDaniel Europe – The Budapest Campus of McDaniel College recommended for students whose knowledge is sufficient in science subjects (Biology, Chemistry), but their English knowledge needs improvement.

ENTRANCE EXAMINATION TOPICS

Biology

- 1. Chemical basis of life: Carbon, Oxygen, Nitrogen
- 2. Chemical groups, Water, pH, Lipids
- 3. Carbohydrates
- 4. Amino acids, Proteins, Biochemical reactions, Enzymes
- 5. Nucleosides, nucleotides, nucleic acids
- 6. Discovering the genetic material
- 7. Flow of genetic information: Genetic code
- 8. DNA replication
- 9. Synthesis of RNAs: Transcription
- 10. Synthesis of Proteins: Translation
- **11.** Cell division: Mitosis
- 12. Cell division: Meiosis
- 13. Structure of cells: Nucleus, nucleolus
- 14. Structure of the cells: Endoplasmatic Reticulum
- **15.** Structure of the cells: Cytoplasm, cytoskeleton, vesicles, cell membrane, cell wall, comparison of euand prokaryotic cells
- 16. Strucure of the cells: Mitochondria
- 17. Oxydative phosphorylation
- 18. Basics of Immunology
- **19.** Questions related to the structure of the mammalian body, circulation, nervous system and visceral organs etc. may also occur.

Chemistry

- 1. Matter, atomic theory of matter
- 2. Periodic table
- 3. Nomenclature of inorganic compounds
- 4. Electronic structure of atoms
- 5. Stochiometry and chemical equations
- 6. Chemical bounds and intermolecular forces
- 7. Gaseous state, gas laws
- 8. Solutions, concentrations
- 9. Reaction kinetics and chemical equilibria
- 10. Electrolytic equilibria, acid-base theories
- 11. Redox reactions
- 12. Introduction to organic chemistry, alkanes
- 13. Cycloalkanes, alkenes, dienes and alkynes
- 14. Aromatic hydrocarbons and alkyl halides
- 15. Alcohols, phenols and ethers
- 16. Aldehydes and ketones
- **17.** Carboxylic acids
- 18. Carboxylic acid derivates (esthers, amides) soaps
- **19.** Amines, heterocyclic compounds (pyrrol and pyridine)
- 20. Carbohydrates

FEES AND COSTS

YEARLY TUITION FEE

for new admissions for the Academic Year 2019/20: **EUR 12,480**

ADDITIONAL FEES

- Application fee EUR 200 (non-refundable) to be paid when submitting your application
- Entrance examination fee: EUR 250 (nonrefundable) – to be paid when applying to an entrance exam

The Application fee and Entrance examination fee are to be paid when submitting your application documents. It is payable to the local representative in your country or in case you do not have one, to our partner, Global International Studies.

All fees are to be paid to the following bank account:

Account name: Global International Studies AG. Swift code: MKKBHUHB IBAN code: HU34-10300002-10686937-48820011 Bank name: MKB Bank Bank address: H-1056 Váci u. 38. Budapest, Hungary

In the comment section please write "Vet.Med" and the name of the student (as written in the passport).

PAYMENT SCHEDULE AFTER ACCEPTANCE:

- When admitted a deposit of EUR 800 should be paid in order to ensure your place within three weeks (failing to send the required deposit before the deadline will result in losing the offered place).
- Before 20th August 2019. 1st term tuition fee should be completed to a total of EUR 7,700 (The 1st semester tuition fee includes the deposit, so the students should transfer EUR 6,900 more until the deadline.)
- Registration fee EUR 220 should be paid together with the 1st semester tuition fee
- Second term tuition is payable in January EUR 4,780

PAYMENT REGULATIONS:

Personal checks and money orders are not accepted. Please note that the above mentioned net amounts have to arrive to the account — the commission charges have to be paid by the student.

The cost applies for those who begin their studies in the academic year 2019/20.

Tuition fees will not change throughout their studies unless interrupted for more than a year.

Returning to the studies after a longer period, the tuition fee valid for the actual semester has to be paid.

REFUND POLICY

I. Prior to Registration at the university

- Non-refundable: application fee EUR 200 entrance examination fee EUR 250 tuition deposit EUR 800
- **Refundable:** 100% all other payments already made

II. After Registration at the university

- Students are not entitled to a refund of the tuition fee if they are compelled to withdraw for academic or disciplinary reasons or if the semester is interrupted after 30th September and 28th February, respectively.
- Students are only entitled to a refund on a pro rata basis (months started) if studies are interrupted.

The refund is applicable with the following conditions:

- Non-refundable: application fee EUR 200 entrance exam fee EUR 250 tuition deposit EUR 800 registration fee EUR 220
- Refundable:

Proportional costs are refundable according to the refund policy stated above. Claims for a refund must be submitted not later than two weeks after withdrawal. **No other claims are acceptable.**

AFTER ACCEPTANCE

PASSPORT AND VISA FOR HUNGARY

For students who are coming from visa obligated and non-EU countries passport valid for Hungary and for at least 2.5 years is necessary. Students coming from EU and EEA countries and holders of passports issued by countries which are granted visa-free travel to Hungary under bilateral agreements (http://konzuliszolgalat.kormany.hu/visa-waiver-agreements) do not need a student visa but have to apply for a registration card within 90 days after their arrival.

The accepted non-EU students must apply for a student visa.

The specific requirements will be listed in the Acceptance Letter issued by the University.

ASSISTANCE OFFERED UPON AR-RIVAL

The University of Veterinary Medicine Budapest and its service providers welcome applicants wishing to study in Hungary. Students admitted get all the necessary help and support to settle down, get adjusted to their new life and become successful students.

HOUSING

Without an official address in Hungary the Residence Permit / registration card cannot be obtained.

Accommodation services are available to help students find a suitable place to live and provide advice and assistance about the rental process, for contacts please visit our website at Student Services.

INSURANCE

A full coverage basic health insurance for Hungary is a prerequisite for registration at the University of Veterinary Medicine Budapest. You will find details in the letter of acceptance or visit our website at Student Services.

REQUIRED TEXTBOOKS

Please visit www.univet.hu/en for a list of recommended textbooks. It is the student's responsibility to have all the required textbooks.

ACADEMIC POLICIES, ACADEMIC CALENDAR, CURRICULUM

ACADEMIC POLICIES

Class attendance and participation in scheduled laboratories and practical exercises is required.

Students are expected to take examinations when scheduled otherwise they lose chances. About details you shall get information at the registration of the Freshman. The credit-system allows a certain degree of flexibility in the timing of the exams. This is conform to international standards and helps an easier setting-in of students with different educational backgrounds.

TYPES OF EVALUATION

- 1. **Signature** (aláírás) participation in scheduled workshops has to be certified by the signature of the authorized lecturer.
- 2. **Practical Course Grade** (gyakorlati jegy) may follow either the 5-scale or 3-scale grading system.
- 3. **Semi-final Examination** (kollokvium) evaluation of the subject matter of 1 semester, 5-scale grading system.
- 4. Final Examination (szigorlat) evaluation of the subject matter of 2 or more semesters, 5-scale grading system.

GRADING SYSTEM

- Five-scale:
 5 (jeles) Excellent;
 - 4 (jó) Good;
 - + (j0) 0000,
 - 3 (közepes) Fair;
 - 2 (elégséges) Passing;
- 1 (elégtelen) Fail 2. **Three-scale:**
 - kiválóan megfelelt Excellent; megfelelt – Satisfactory; nem felelt meg – Unsatisfactory

ACADEMIC CALENDAR

Fall semester: early September – mid December followed by a six-week exam period Spring semester: early February – mid May followed by a six-week exam period

CURRICULUM

Below you find the core subjects listed, for their content you may visit: https://univet.hu/en/education/courses/. The semester covers 15 weeks. One unit of instruction is a 45-minutes period.

1st Year

	1 st SEI	MESTER - WINT	ER-TERM	2 ND SEMESTER - SPRING-TERM
