

## **Katrin Hinrichs**

Professor and Chair of the Department of Clinical Studies New Bolton Center at the University of Pennsylvania's School of Veterinary Medicine. Her research focuses on assisted reproduction in the horse, exploring aspects both of basic biology and clinically-applicable technology. Dr. Hinrichs' laboratory produced the first cloned foal in North America and developed many of the techniques that have supported the growth of ICSI and in vitro embryo production as a clinical tool for equine reproductive management worldwide.
