

Job Offer in Fribourg, Switzerland

The location

Our structure is located in Fribourg (Switzerland).

Our mission

We are dedicated to veterinary emergencies in order to provide the best care to the pets of the owners when they need it the most.

Our values

Pets are a part of our families and we are committed to and our desire is to accompany owners with our empathy and medical excellence. We are committed to changing the face of emergency veterinary medicine with a "pet and client first" mentality by providing an attentive listening ear from the start to build a relationship of trust.

We are committed to providing the highest quality medicine.

Finally, because this medicine evolves quickly, we want to be in the vanguard, in constant research of what could be the veterinary medicine of tomorrow.

Our structure

The practice has a complete technical platform (radiography, cardiac and abdominal ultrasound and laparoscopy) and a complete IDEXX laboratory.

A restroom, offices and a kitchen area are also available.

WHAT WE WE CAN OFFER YOU

Subsidized external training: an annual budget is dedicated to the participation in training courses such as congress, ESAVS, or equivalent.

A customized schedule and compensation that will allow you to reach your goals.

A balance between professional and private life guaranteed.

A real career plan, not only for the firm but also for the of the group.

The possibility of participating in the training courses already in place:

Journal club, practical and theoretical training, webinar.

JOB DESCRIPTION

Your role:

- To ensure the care of hospitalized animals and emergency consultations.
- The possibility to refer the most complex cases, SI as well as surgeries all night in our center in Etoy.
- An AMV (Assistant in Veterinary Medicine) is present all night or up to 1h depending on the schedule.

WORKING CONDITIONS

To start in April on a permanent basis

Working hours: 35 hours/week

Remuneration : CHF 8'000.00 / month

NEEDED:

A certification of B2 in French

Being proactive

Being independent during the consultation, a bit of experience is needed.
