

Our client is one of the most prestigious veterinary clinics in Southern Germany. It is well known for its neurological and surgical expertise. Flat hierarchies and teamwork among the 40 employees guarantee a smooth workflow. Being part of an international clinic group and the technical equipment make this clinic to an attractive employer. Most likely, it will move into a new building in 2023.

In the course of appointing a successor for the neurology team we are looking for a

## **Diplomate veterinary neurology ECVN/ACVIM (m/w/d)**

### **Responsibilities:**

- You are part of a team of fourteen veterinarians and in the long term you will become the head of the neurology department
- You and two other Diplomates ECVN organise the daily routine of the neurology department. In addition you are responsible for the further education of the interns
- Your patients are mostly referral patients with a broad spectrum of neurological disorders
- The diagnostic and therapeutic approach to your patients are your own responsibility
- Diagnostic imaging techniques like CT and MRI are performed on site
- Neurosurgical procedures in particular spine surgeries
- You keep in touch with the all referring veterinarians since fast and neat retransfers are especially important to you
- You take part in the further education of the Residents ECVN
- You collaborate with internal and external specialists
- Professional exchange between the members of the international clinic group
- Your direct supervisor is the head of the clinic

### **Your qualifications:**

- You have studied veterinary medicine and are specialised in Small Animal Medicine
- You are Diplomate ECVN or Diplomate ACVIM Neurology. You are also welcomed if you have finished your Residency Training Program.
- You can perform diagnostic imaging techniques like CT and MRI
- Ideally, you are interested in neurosurgery. However, this is not a requirement.
- You use all available options of laboratory methods
- The further training of the residents and interns is crucial to you
- You like to participate in continuing education programs and are willing to travel internationally for that purpose
- You can communicate in German
- You are willing to perform occasional background services

**What we offer:**

You are able to increase your professional development by working together with two-experienced Diplomates ECVN. Because a broad range of different neurological diseases is treated, you are able to use your full knowledge. Over time, you and your expertise will become one of the figureheads of the clinic. You will become part of a network of specialists, which will lead to the success of the clinic and the whole group. The clinic will support your participation in international veterinary congresses. The planned movement into a newly built clinic in 2023 will improve the offer for patients, owners and employees.

For further information, please contact Dr. Isabell Oran or Dr. Felix von Hardenberg. You can reach them at +49 8178 9986410.
