Further information

- ❖ The ERASMUS+ program offers grants to students attending a European partner university for a minimum of 3 months (for traineeships a minimum of 2 months) to a maximum of one year (see table of partner institutions).
- ❖ Courses taken by students can only be accredited if they are a part of the curriculum of the mother institution.
- ❖ ERASMUS+ grant (around 470-620 Euro/month) will not cover all additional costs of the study period abroad (travel costs, accommodation, meals, insurance, etc.)
- ❖ The goal of the university is to see that the most talented and knowledgeable students receive scholarships. For this reason, the student's grades and scientific, professional, and social involvement are the most important factors in the selection process.
- ❖ Applying to the student's home country is possible, however they are considered with the lowest priority.
