

Overview of the Student feedback system

German program, 2022/23 Semester 2.

In total 109 German class students gave feedback. We received 902 evaluations about teacher out of which 32 contained written text. We received 443 evaluations about the departments where 22 contained text. Evaluations are only valid if the students gave five or more feedback about a teacher or a department.

Students gave feedback about 21 lecturers with an average of 4.4.

Students gave feedback about 32 practical teachers with an average of 4.4.

Students gave feedback about 15 examiners with an average of 4.6.

Distribution of the points is the following:

score	lecturer	practical leader	examiner
4.5 < average ≤ 5.0	9	14	67
4.0 < average ≤ 4.5	9	14	25
3.5 < average ≤ 4.0	1	2	9
3.0 < average ≤ 3.5	2	2	4

Teacher can access their own evaluation, the department heads can see the evaluation of all off their colleagues, while the leadership can see everything.

Department Heads must talk to all teachers scoring below 3.5. These teachers must prepare a personal development plan and they also have to participate a teacher training program.
