(study affairs/Studium und Lehre)

Dr. Ákos JERZSELE, DVM, Ph.D., associate professor
(research and science / Wissenschaft und Forschung)

ACADEMIC YEAR 2024/25

There is a certain amount of vital information that is required for you to successfully complete your studies and to make the best use of the University's facilities. We therefore urge you to take time to read this guide – and preferably not the shortened summary / highlights only. Items contained within this guide are sometimes unavoidably subject to change. It is the student's responsibility to ensure they are aware of the correct lecture, practical, tutorial and examination schedules.

This guide is a collection of basic information concerning the 238th Academic Year (2024/25) of the University of Veterinary Medicine, Budapest. Its content may be particularly useful for international students. Please remember that while exam regulations and general conditions of studies are valid for the entire Academic Year, there might be minor changes such as free days given by the Rector for special occasions, personal changes at the Departments, etc. which cannot be scheduled. To remain properly informed, stay in contact with the Secretariat of International Study Programs either personally or through your elected representatives and visit our home page (www.univet.hu). Also notice that this guide applies for the ongoing studies. Conditions of admission including financial aspects are contained by the prospectus of the university as well as on our website: <https://univet.hu/en/education/admission/fees-and-costs/>

We wish you a successful Academic Year!

Secretariat of International Study Programs

INTERNATIONAL STUDY PROGRAMS

VICE RECTOR FOR STUDY AFFAIRS:

Dr. László ÓZSVÁRI (DVM, Ph.D., Full professor)

Office: Department of Veterinary Forensics and Economics (Bldg. L 3rd floor), **Phone:** (+36-1) 478-4185, email: ozsvari.laszlo@univet.hu

DIRECTOR OF INTERNATIONAL EDUCATION:

Dr. Gábor MÁTIS (DVM, Ph.D., Associate professor)

Office: Department of Physiology and Biochemistry (Bldg. C), **Phone:** (+36-1) 478-4100 extension: 8433, email: matis.gabor@univet.hu

Consulting hours: Tuesday, 2.00-4.00 pm, only with a previously fixed appointment

STUDENTS' SECRETARIAT OF INTERNATIONAL STUDY PROGRAMS

Address: H-1400 Budapest, P.O.Box 2, Hungary (1078 Budapest, István street 2. Building H. 1st floor)

TIMING OF THE ACADEMIC YEAR 2024/25

Winter-term 2024/25

- **Autumn exam period 2024** prior to the 3rd and 5th curricular year: 26th August (Monday) – 6th September 2024 (Friday)
- **Payment of the tuition fee** of the fall-term is due between 10-20th August 2024 (for all years, except the Freshmen), the prescribed tuition fee has to arrive at our account latest by 20th August 2024!
- **Registration / Orientation for the 1st international, English-language class:** on Wednesday, 4th September 2024, at 12.00 (noon) **on campus in person** (for the German program: 5th September, Thursday, 10.00). Administration or registration electronically: from 6th September 2024 (Friday) 8.00 AM till 13th September 2024 (Friday) 11.00 PM **exclusively in NEPTUN, ONLINE** (you will receive your Neptun-code at registration)
- **Registration to higher semesters for active/inactive/passive status :** from 6th September 2024 (Friday) 8.00 AM till 13th September 2024 (Friday) 11.00 PM **exclusively in NEPTUN, ONLINE**. After 13th September you can register with a surcharge of EUR 100/week only, but latest by 30th September (Monday); Those who have autumn exams (future 3rd and 5th year students), registration is possible **without** late fee by 30th September!

***Please note (1):** Indicated deadlines are NOT for starting payments, NOT for the arrival of your tuition fee at the bank - but for the registration at the Student's Secretariat at campus.*

***Please note (2):** registering for the subjects in Neptun and for the term with the registration sheet do count as registration (regarding tuition fee refund) and both administrative steps are required prior to the official semester start!*

***Please note (3):** without being registered you are not entitled to attend classes and/or practicals. More than four weeks of absence (30%) in a term results in an automatic exclusion from the semester.*

- **Registration in Neptun for the compulsory subjects:** between 6th September 2024, 8.00 AM (Friday) – 13th September 2024, 11.00 PM (Friday),
 - **Registration in Neptun for the elective courses/subjects:** between 7th September 2024, 10.00 AM (Saturday) – 13th September 2024, 11.00 PM (Friday)
- Please note: in Neptun at first you need to register for the semester (2024/25/1) as active, inactive or passive, then for the compulsory subjects and their theoretical + practical courses (both from 6th September 2024), then the elective subjects (from 7th September)!
- **Deadline for withdrawal** with (partial) tuition-refund: 30th September 2024.

Students entering the 9th curricular semester have to present their registration form for the thesis (so-called: Thesis announcement form or TDK application form) – with uploading them to Neptun.

- **Opening ceremony of Academic Year 237:** 6th September 2024, Friday, 10AM
- **Start of teaching:** 9th September 2024 (Monday)
- **Duration of teaching:** 9th September – 13^h December 2024
- **Freshmen's programs:** 9th –15th September 2024
- **Barbecue party on campus:** 12th September 2024, (Rector's break from 2.00 PM)
- **Marek-Days:** 14-19 October 2024
- **Freshmen Ball:** 9th November 2024 (Saturday) in the Aula Maxima
- **TDK (Students' Research Circle) conference:** 19th November 2024 (Tuesday) in the Aula Maxima
- **Exam period:** 16-23/12/2024 and 02/01 –31/01/2025 (retakes from previous semesters from 1st December 2024)

11th semester students:

- **Duration of the 11th (practical) semester:** 02/09/2024 – 17/01/2025 (winter break: 23/12/2024 – 03/01/2025)
- **Deadline for uploading the thesis to Neptun:** 29th November 2024, **for final submission of the bounded thesis:** 13th December 2024
- **Exam period of the 11th (practical) semester** for blocks taken outside Hungary are scheduled for 20/01/2025-31/02/2025.
- **State exams (thesis defence):** between 3-7 February 2025
- **Graduation ceremony:** 28th February (Friday) 2025, 14.30

Bank-Holidays:

23rd October 2024 (Wednesday), 1st November 2024 (Friday), 25-26th December 2024 (Wednesday-Thursday), 1st January 2025 (Wednesday). Teaching days during holidays: 7th December and 14th December 2024.

Spring-term 2024/25

- **Registration to ALL YEARS for active, inactive or passive status exclusively in NEPTUN, ONLINE:** from 8.00 AM on 31st January 2025 (Friday) till 11.00 PM on 10th February (Monday) exclusively in NEPTUN. After 10th February 2024 you can register with a surcharge of EUR 100/week only, but latest by 28th February 2025.
Please note (1): Indicated deadlines are *NOT* for starting payments, *NOT* for the arrival of your tuition fee at the bank - but for the registration at the Student's Secretariat at campus.

Please note (2): registering for the subjects in Neptun and for the term with the registration sheet do count as registration (regarding tuition fee refund) and both administrative steps are required prior to the official semester start!

Please note (3): without being registered you are not entitled to attend classes and/or practicals. More than four weeks of absence (30%) in a term results in an automatic exclusion from the semester.

- **Deadline for withdrawal** with (partial) tuition-refund: 28th February 2025.

- **Duration of teaching:** 3rd February 2025 – 16th May 2025
- **Exam period:** for year 1-4: 19th May – 27th June 2025 (for retake exams from previous semesters from 1st May 2025); for year 5: 5th May 2025 – 27th June 2025 (retakes from 1st May 2025)
- **The delayed 11th semester** (possible only abroad) has to be started not later than 6th January 2025; has to be finished the latest by 9th May 2025. The thesis upload to Neptun is due by 7th March 2025, final thesis submission is due by 21st March 2025, exams of the 11th semester are scheduled for 12th May 2025 – 23rd May 2025; state exams (thesis defence) between 26th – 30th May 2025.
- **Bank-Holidays:**
 - 14th April 2025 – 21st April 2025; Spring-break
 - 1st May 2025 (Thursday) International Workers' Day
 - 9th June 2025 (Monday) Pentecost

Monday's schedule is valid on Saturday, 26th April 2025 (instead of 21st April, Monday)
- **Special occasions:**
 - Job Fair: 13th February 2025, Thursday 10.00 AM
 - **Graduating ceremonies:** 28rd February 2025, 2.30 PM and 27th June 2025, Friday (for the delayed 11th semester students)
 - Career Eve for International students: 19th March 2025, Wednesday
 - Student's concert: 9th April 2025, Wednesday, 5PM
 - Equus-days: 22nd – 26th April 2025
 - International day: 23rd April 2025 (Wednesday)
 - Farewell March of the 10th Semester: 9th May 2025, Friday, 10.00 AM (Rector's break between 10-12.00)

- **Extramural practicals**
 - after the 4th curricular semester: Animal Breeding, (2 weeks) between 30th June and 11th July 2025
 - after 6th curricular semester: Animal Nutrition, (2 weeks) between 30th June and 11th July 2025
 - after the 8th curricular semester: Polyclinical practice, (4 weeks) between 30th June and 5th Sept. 2025

GENERAL REMARKS

The Academic Year begins in September and consists of two terms, 1st and 2nd or Winter- and Spring-term, respectively, each being concluded by a 6-week examination period. The studies progress as semesters 1-11. A semester coincides with one term. For the purpose of special occasions (Students' Carnival, International Day, Meeting etc.) the Rector can suspend teaching for a limited period of time.

Time schedules and exam regulations are different for semester 1-10 and the 11th semester. The international (German- and English-language) study programs are mainly identical with the Hungarian-language program in their content but not necessarily in regulations.

You are welcome to contact the Student's Secretariat and / or the coordinators for academic guidance, e.g. in regards of exams, electives, student status. The course will move quite quickly, so there is no time for complacency from any student but, if you attend your classes and keep up with course reading, you should be fine. If you do find yourself falling behind or are unable to keep up, please bring it to the attention of the individual lecturer or program-coordinator as soon as possible. We are very happy to help!

Medical reports, (learning) disabilities

An updated medical report about physical and mental fitness might be asked for during your studies with us. Students with specific learning disorders might contact the Student's Secretariat in due time so that assistance in any possible way can be offered. You may provide medical certificate on learning disorders and submit to the Students' Secretariat by the beginning of the term but latest till 30th September 2024 (fall-term) and 28th February 2025 (spring-term). You can send it via email to student@univet.hu. Medical certificates have to be written in English or German, and they have to be issued within the last 3 years.

Registration, enrollment

At the beginning of each term students (also inactives, although at registration) have to register at the Secretariat of International Study Programs documenting the fulfillment of all requirements necessary to enter the relevant semester (see below). On late registration a surcharge will be levied (EUR 100/week). **Without being registered you are not entitled to attend** classes or exams!

The prerequisites of registration / enrolment to the subsequent semester are:

- the acceptance of the previous semester,
- a certificate verifying the arrival of your tuition fee due for the forthcoming semester
- valid health insurance
- the deposition of the study record book ("black book")
- a copy of your residence permit / registration card at the Student's Secretariat.
- teacher evaluation completion is compulsory part of registration and it is a precondition of exam sign up (with no evaluation, exam sign up is not possible).
- completion of the health- and safety online course upon request, prior to enrollment/exam registration

The attendance at classes is obligatory. Absence from any class does not excuse the student from her/his responsibility for the work done, material covered or from any announcement made during her/his absence. There is a close correlation between students who miss classes and those who fail their exams.

In case a student misses any practicals, the given subject will not be accepted. **More than 30% of absence from an academic subject in a term results in an automatic exclusion from the semester, while the reason for being not present is irrelevant.** This requirement (set by law) is compensated at our school by the numerous and temporally diverse exam chances, the probability of revisiting a subject and the inactive status.

At the beginning of each semester, students must register for the courses in the Neptun system by the last working day of the second week of the term-time. Students failing to register for a necessary course in the Neptun, they may, by no later than 10 October or 10 March respectively, request the vice rector for study affairs via the Neptun system to give permission to register for the course posteriorly, in return for an additional service fee. After that, there is no other opportunity for posterior course registration. According to the Code of Student Remunerations and Fees the fee for registering for a subject outside the registration period is 10, - EUR per subject, which is to be paid through the Neptun system.

Exemptions from courses (based on previous under- and postgraduate studies)

Transfer-students might be exempted in certain academic subjects already studied at university level. Please furnish the Secretariat of International Study Programs (and NOT the department) with your academic record and the syllabi by the end of September / February should you ask for an exemption! Appropriate official, authorised information should indicate the topics/content, number, type (e.g. lecture, lab work) and credit point of the subject, the grading system and the grade earned. The submitted documents have to be written in English (original document or certified translation). A preliminary evaluation is made already on the basis of submitted copies, however, original syllabi of your previous studies have to be sent by your school directly to the Student's Secretariat in Budapest by November / April, otherwise your exemptions lapse.

URGENT HELP IN CRISIS

We would encourage you to take steps by contacting university officials if you are in a mental health crisis or someone you know who is in danger.

Support staff members you can contact:

Mr. Levente SOMOGYI (Student Mental Health Counselor):

Office: Room # 106 in building H. (1st. floor)

Email: mhc@human-service.hu

Phone: +36 30 386 9898

Ms. Tímea Natália SZILÁGYI (Student Well-being Coordinator)

Office: Bldg. H 1st floor

Email: complaints@univet.hu; Szilagyi.Timea.Natalia@univet.hu

Phone: +36 1 478 4100 / 8320 (extension)

Dr. Mira MÁNDOKI Ph.D. (Harassment Officer)

Office: Building E/2, 1st floor right

Email: mandoki.mira@univet.hu

Phone: +36 1 478 4285

You can report any type of inappropriate behaviours that happened to you personally or to a fellow student studying at UVMB. You can find the Reporting Bullying Form here

<https://univet.hu/en/student-support-services-at-univet-budapest/find-urgent-help/>

ADMINISTRATION OF COMPLAINT HANDLING

Student Well-being Program is managed by a program **coordinator**.

The program coordinator takes care of students' complaints and proposals. You can send an official complaint to complaints@univet.hu. It can be handled also anonymously.

EXAM REGULATIONS

(as a framework for the compulsory subjects; for a detailed set of rules visit www.univet.hu)

PREFIX

Midterm tests can be organized by the departments on condition that they are announced at the beginning of the semester.

Requirement to sit an **exam** is the acceptance of the semester certified by the “signature” of the authorised lecturer of the subject. The study record book (“black book”) has to be presented at the oral / practical exam; an ID / passport of the student should also be presented at the exam if asked for.

A range of available exam dates (within the timeframe below) is offered by the departments via the **Neptun system**. Participation at the exam is not allowed without being registered for it. You are welcome to register for an exam even without having met the prerequisite of sitting it. If you do not register for an exam date (for an actual, not a postponed one from an earlier period) in Neptun, or the student does not appear at the indicated time for the exam, the opportunity is lost! Deadlines for exam-(de) registration, modifications are indicated in Neptun. Default is 10AM of the previous working day. Please pay attention to the end of the add/drop period of exams: deadlines are vital.

The grading in oral exams follows usually the principles below:

1. Fail: the knowledge of the student about the given topic(s) is not sufficient, after major mistakes/ignorance the student cannot answer substantive questions of the examiner;
2. Passing: the knowledge of the student about her/his topic(s) is very brief, but the student can answer substantive questions of the examiner;
3. Fair: the knowledge of the student about her/his topic(s) is acceptable, or the student has stable knowledge about the majority of topics, but one of the topics is barely acceptable;
4. Good: the knowledge of the student about her/his topic(s) is good, but the student cannot answer other questions of the examiner;
5. Excellent: the knowledge of the student about her/his topic(s) is very good, her/his answers do not leave any questions to the examiner or the student can confidently answer other questions of the examiner.

Written exams are usually graded according to the following grade scale: up to 59% = 1, fail; 60 – 69% = 2, passing; 70 – 79% = 3, fair; 80 – 89% = 4, good; 90 – 100% = 5, excellent. This is, however, for general orientation only. Departments are entitled to use a different grading scale for each and every exam, even of the very same subject - and it does not have to be a proportionate one.

Results of written exams will be published in the Neptun-system within two working days. You can ask for a revision of your paper or lodge a complaint within three further days. Should a result be missing from or recorded in the Neptun-system incorrectly, students are urged to report to *student@univet.hu* within three days.

Should you re-take (a successful) exam the latest grade obtained is becoming valid. When being allowed to re-take a subject, previous results of it (mid-terms, signature etc.) are not valid anymore. The maximum number of exam repetition of a successful exam is limited in three/semesters in total, for all the subjects.

Plagiarism and cheating are a violation of the University's academic regulations and are subject to disciplinary action. Students who fail to credit properly ideas or materials taken from another commit plagiarism. Putting your name on a piece of work – any part of which is not yours – constitute plagiarism, unless that piece is clearly marked and the work from which you have borrowed is fully identified.

Cheating during an exam includes but is not limited to e.g. peaking at other's exam, using non-permissible electronic devices or assistance. If you are caught in a dishonest act during the course of an examination you will be reported to the Secretariat of International Study Programs. Students found guilty of cheating will receive a failing grade on that exam and might be subject to further disciplinary action. Penalties - even the dismissal from the school - may be imposed at the discretion of the relevant authorities.

EXAM REGULATIONS FOR SEMESTERS 1 - 10

You can find UVMB Academic Regulations and Requirements here <https://univet.hu/en/education/about/uvmb-academic-regulations-and-requirements/> Each exam can be taken six times:

- three times in the actual exam period, i.e. following the curricular time of the (part of the) subject (end of December – beginning of February or end of May – end of June, respectively). Opportunities missed cannot be transferred to a later period, they are lost!
- altogether three further, postponed occasions are available for the exam within any of the following periods:
 - Fall semester: 1st December – beginning of February;
 - Spring semester: 2nd May – end of June;
 - For subjects of the 4th and 8th semester (regarding the firewall): within the two weeks around the start of the academic year in September.

There is no way getting registered for curricular semester 5 without having passed all the exams of semesters 1–4 and for curricular semester 9 without having passed all the exams of semesters 5–8 .

Also: strict prerequisite of entering the 11th (practical) semester is to pass all exams of the first five years.

However, pay attention to deadlines: on late registration a surcharge will be levied (EUR 100/week). Please remember: without being registered you are not entitled to attend classes.

Students can sit exams in an unlimited number of subjects within any exam period. The last week of the exam period is reserved for re-takes. Please do keep this limitation in mind when setting up **your own, individual exam schedule** and rearranging it, postponing dates etc. It is your responsibility to make a good use of the offered chances, dates! The minimal waiting-time for repetition of a failed exam might be set by the head-of-department.

With subjects extending over several semesters exams may accumulate. Even in these cases, however, exams must be given in a strict thematic-chronological order relevant to the subject. This means that first comes the earliest postponed exam of the subject then the next one. Although exams can, **on the students' risk(!) be shifted** to a later period, no exams can be skipped or taken in reverse thematic order. **Furthermore, the following subject prerequisites must be regarded:**

1st – 2nd year subjects:

Chemistry exam for Vet- & Food Chemistry exam, Vet- & Food Chemistry exam for Biochemistry final; Anatomy I exam for participation at Anatomy III classes; Anatomy II exam for participation at Topo-classes; Genetics exam prior to Animal breeding exam; registration for the Genetics subject prior to registration for the Animal Breeding summer practice, completion of the Animal Breeding summer practice prior to register for Animal Breeding (the Animal Breeding summer practice is required to be organized by the student him/herself)

3rd – 5th year subjects:

Pathophysiology exam for Small Animal Medicine 1 exam; Pharmacology final for Toxicology exam; Toxicology exam prior to Prudent use of antimicrobial drugs exam; General Pathology + Pathology 1+2 exams prior to sit Pathology 3 (final) exam; the sequence of exams in the subjects Vet. Virology – Vet. Bacteriology – Vet. Immunology –Epidemiology has to be taken into consideration.

After two failed exams in a (part of the) subject, different examiner can be asked for at the head of department, if the first two attempts were evaluated by the same staff member.

Should the student fail to meet the requirements within the 3+3 options available for an exam, a year has to be taken off from regular studies and he / she has to become inactive. As an alternative a request to re-visit the subject (for an additional fee) can be submitted at student@univet.hu by mid-September or mid-February. The number of chances for visiting a (part of a) subject is limited in total to two.

Regulations of the inactive semesters

If a student cannot pass all the exams of the appropriate firewall (after 4th, 8th and 10th semesters), the student status has to become inactive. No tuition fee is required when the student has an inactive status, i.e. is waiting only for re-taking exam(s) without the obligation / permission to attend classes. In this case, however, a repetition registration fee of EUR 300/year has to be paid and a registration at the Student's Secretariat (at least via email) is required by the middle of September and February. Students with inactive status can retake the missing midterms and exams, but they are not allowed to visit classes. By getting registered for the inactive status none of the six exam chances from the regular status are available anymore. Two chances for the missing exam(s) each) are granted during an inactive semester, meaning altogether -four exam possibilities during two consecutive inactive semesters. Unused exam chances cannot be postponed to the next semester, they will be lost. The exam chances might be used either outside or within the exam periods, i.e. from 1 October until the end of the winter exam period (beginning of February), and from 1 March until the end of the summer exam period (end of June) - at dates indicated by the department(s) via the Neptun-system for inactive students. Please note that inactive students are encouraged to be examined before the exam period due to the high number of active students to be examined in the exam period. Hence, the department can decide to provide or not to provide exam dates for inactive students in the exam period, please be informed on time concerning the available exam dates! In case of subjects of the 4th and 8th semester, inactive students can also be examined within the two weeks around the start of the academic year in September if the department decides to provide exam date(s) for inactives within this time period, and if the student has still unused exam chances from the spring inactive semester. Participation at the exam is not allowed for inactives without being registered for it. A re-activation of the student status (to become a part-time or full time student) during the inactive semester is not possible.

Students are allowed to be inactive for a maximum of two consecutive semesters. If the student has still not completed all the required exams to continue her/his studies after two inactive semesters, the student status has to be terminated.

Taking all active and inactive semesters together, students have maximum ten examination possibilities in a subject, 3+3 chances as active student, and 2+2 chances as inactive student. These numbers cannot be exceeded under any circumstances, even not in case of readmission!

Readmission and part-time status

Students with terminated status can apply for readmission to become a part-time student. The readmission application is evaluated on a case-by-case basis, and it is possible only once for each student. Readmission is only possible if the student has only one missing subject to continue her/his studies (or max. two in case of Anatomy 3 + Topographic Anatomy or Pharmacology 2 + Toxicology), and the student has not used up all the ten exam chances from the given subject. Part-time students are visiting the missing course for a special tuition fee - if their request was granted. Part-time status can be granted after readmission or if some mid-

term requirements of a given subject (such as completing practicals) are not fulfilled, so the subject has to be re-visited. In this latter case, a request for re-visiting a subject has to be submitted at student@univet.hu latest by mid-September or mid-February. When being allowed to re-take a subject, previous results of it (mid-terms, signature etc.) are not valid anymore. Same rules and regulations (compulsory attendance, exam dates etc.) are valid as for regular students in the subject(s) he / she is registered for as a part-time student. For all further subjects the rules and dates of inactive students apply.

INFO-SUMMARY ABOUT THE STUDENT-STATUS

- a. **If you are inactive:** look for dates and places designated for inactives, places for regular (=active) students are usually not available for you (although dates might be the same); fee for inactive status, for one year (valid for two semesters): EUR 300,-/ year. Please note that it is possible to be inactive or a part-time student for a maximum of two consecutive semesters (inactive and part-time semesters counted together)!
- b. **If you are a part-time student:** the same rules and regulations (compulsory attendance, exam dates etc.) are valid for you as for regular students in the subject(s) ONLY you are registered for as a part-time student. For all other subjects the rules and dates of inactive students apply. The number of chances for visiting a (part of a) subject is limited to two. Part-time status can be granted after readmission or if some mid-term requirements of a given subject (such as completing practicals) are not fulfilled, so the subject has to be re-visited. A request for re-visiting a subject has to be submitted at student@univet.hu latest by mid-September or mid-February. Fee depends on the number (and type) of subjects you are registered for, usually some EUR 500,- or 2080,-/semester/subject. (See Annex. 1) Please note that it is possible to be inactive or a part-time student for a maximum of two consecutive semesters (inactive and part-time semesters counted together)!
- c. **If you are a regular student** (e.g. of the second year), but re-visiting some subject/s (e.g. Biochemistry 1) the same rules and regulations (compulsory attendance, exam dates etc.) apply as for regular students for ALL your subjects. When re-taking a subject previous results of it (mid-terms, signature etc.) are not valid anymore. The number of chances for visiting a (part of a) subject is limited to two. A request for re-visiting a subject has to be submitted at student@univet.hu latest by mid-September or mid-February. Fee depends on the number (and type) of subjects you are registered for in addition to your regular course, usually some additional EUR 500 - 2080,-/semester/subject.
- d. **If you have a regular, full-time status but miss some exams** please look for the dates offered as re-takes or postponed exams. Attendance at practicals of the subject you miss the exam in (thus re-visiting it) is not permitted; fee: no additional fee required.
- e. **If you have a passive status: this keeps your place with us for one or maximum two semesters between two active years. This involves no tuition fee, however, during the passive semester or year no exams, no electives can be taken.**

f. If you have an individual study plan is usually offered along with doing - due to several major exemptions - courses from the 1st and 2nd curricular year simultaneously, it is called: “2in1”. Please contact the Student’s Secretariat for details. Basically the same rules and regulations (compulsory attendance, exam dates etc.) apply as for regular students for ALL subjects you are not exempted from. As a general rule “2in1”-students are exempted from the exam (but not the classes or mid-terms!) in the academic subject “Anatomy 2” and offered to have their “Anatomy 3” in May-June; fee: no additional fee required. Details about Anatomy for 2in1-s can be read in your exemption letter, see also below!

– **Please note the following Anatomy regulations for 2in1 students:**

- In the fall-term you will study Anatomy 1 and 3 parallel; same in the spring term: you will study Anatomy 2 + Topographic Anatomy.
- In the fall-term, the Anatomy 1 exam can be sat. You will ‘just’ attend Anatomy 3 parallel with Anatomy 1 but you can only sit the Anatomy 3 exam in the summer exam period, after attending the Anatomy 2 course.
- If you do not pass the Anatomy 1 in the fall-term, you lose the chance to finish the Anatomy courses in one year, so the option of 2 in 1 would be lost.
- In the spring-term you do not have to sit the Anatomy II exam, but you need to attend the course (parallel with Topo. Anat.) because the Anatomy 3 final exam includes the Anatomy 2 as well.
- In the spring you need to sit the Anatomy 3 exam (having 3 exam chances) and in case of completion, you can sit the Topo. Anat exam.
- If you do not pass Anatomy 1 in the winter exam period, you will not only need to attend the Anatomy 2 course in the spring-term, but you would also have to sit its exam (after completing Anatomy 1). In this scenario you cannot sit the Anatomy 3 exam in the spring, and you can not participate in the Topo. Anat. classes either!
- However, we offer you to repeat the Anatomy 3 course in the next autumn for free upon request addressed to the director of education for international study programs – in case you fail in Anatomy 1 by the end of the winter exam period and lose the chance to finish in 1 year with the 2 in 1 program.
- link to the Anatomy Department and its regulations: <https://univet.hu/en/about/units/department-of-anatomy-and-histology/students-guide-to-anatomy/>

Should you be uncertain about your student status please do contact the Student’s Secretariat for clarification.

Equitable treatment

If a student, in a particular subject, has not exhausted the number of exam possibilities allowed in the given semester, it may be permitted to take a repeated exam during the first week of the spring semester following the winter exam period, or during the two-week period subsequent to the exam period that follows the spring semester, provided that the student already attempted the particular exam. Please note that such exam under equitable treatment is not possible from the subjects of the 10th semester as there is the extended exam period in July being available for all active students of the 10th semester. No exam possibilities under equitable treatment can be granted in/after the two-week exam period (4th and 8th semester subjects) at the beginning of September. The request for equitable treatment has to be submitted via the Neptun system no later than on the last day of the exam period.

An examination possibility under equitable treatment in the aforementioned time period can be provided by the Rector, and it can be granted only once during the studies at UVMB. Further, if the student could not attend her/his last registered exam attempt due to unfavorable health conditions (justified by a medical certificate), the Vice Rector for Study Affairs can provide an exam possibility within the aforementioned time frame as an equitable treatment.

Please note that no further exam possibilities can be granted under equitable treatment if the maximal possible number of exam chances for the given subject and exam period/semester (3 + 3 chances for active students; 2 chances per inactive semester) is already used up, or the maximal possible number of exam attempts (10) of the given subject is reached by the student! It has to be stressed that an exam under equitable treatment is only possible in the aforementioned cases and conditions!

PLAGIARISM, CHEATING, DISCIPLINARY ACTIONS

Plagiarism and cheating are a violation of the University's academic regulations and are subject to disciplinary action. Students who fail to credit properly ideas or materials taken from another commit plagiarism. Putting your name on a piece of work – any part of which is not yours – constitute plagiarism unless that piece is clearly marked and the work from which you have borrowed is fully identified.

Cheating during an exam includes but is not limited to e.g. peaking at other's exam, using non-permissible electronic devices or assistance. If you are caught in a dishonest act during the course of an examination you will be reported to the Secretariat of International Study Programs. Students found guilty of cheating will receive a failing grade on that exam and might be subject to further disciplinary action.

A disciplinary trial will be initiated (the latest) when the third occasion of cheating have happened. Penalties - even the dismissal from the school - may be imposed at the discretion of the relevant authorities.

You can read the Regulation of disciplinary and indemnification cases under the following link on our website: https://univet.hu/files/menus/53/files/Regulation_of_Disciplinary_and_Indemnification_Cases.pdf

Dismissal due to academic reasons:

- after having reached the end of the inactive year (students can have one consecutive inactive year only) OR/AND
- after having used the 10 exam chances up that are given in total, your student status will be terminated. You will have no legal status with the university anymore.

LIMITATIONS FOR THE ENROLLMENT

- For limitations on visiting a subject or sitting an exam please see subject prerequisites.
- For limitations on exam-dates please see prefix and Neptun. Be reasonable when setting up your individual exam schedule and rearranging it or postponing dates.
- The number of chances for visiting a (part of a) subject is limited in total to two.
- The student who does not pass all the exams of the first four curricular semesters is **not entitled to register for semester 5. (1st firewall)**
- The student who does not pass all the exams of the third and fourth curricular years is **not entitled to register for semester 9. (2nd firewall)**
- The student who does not pass all the compulsory exams of semesters 5-10 and does not collect at least 30 ECTS-credits from elective courses and does not produce the thesis progress report ("thesis 1" in Neptun) is **not entitled to start the 11th (practical) semester. (3rd firewall)**
- From February 2019 the interruption of the regular, full-time student status (e.g. being inactive and / or a part-time student) during the studies with us for more than two semesters in a row (between two active years) would result in an automatic suspension in Budapest, so the student status has to be terminated!
- There is a maximum of 10 chances offered to attend an exam of a (part of a) subject, including inactive and part-time status, re-visiting a subject, equitable treatment and the re-admission in Budapest.

Registration for each and every semester is (also for inactives) obligatory - as stated above.

Please note (1): from September 2023 (for those who started in or later than September 2019), completion of all exams of semester 5-8 will be a prerequisite of enrollment for the 9th semester! In case of no completion, maximum one consecutive so-called 'inactive year' can be taken out for sitting the missing exams. There will be no way to register for the 9th semester with missing exams!

Please note (2): *Without being registered you are **not entitled to attend** classes or exams! More than 30% of absence in a term results in an automatic exclusion from the semester.* For the range of available **elective courses** please contact the Neptun system. Please pay attention to the end of the add/drop period of electives: deadlines are vital. Ad hoc courses held by departments (guest lecturer, meeting etc.) cannot be accepted as credits if not indicated otherwise.

Credits are granted after the successful exam only.

The Student's Secretariat will mail certificates of completion (Academic Transcripts) on request directly to the indicated institution(s) only, and will not issue it to the student. For more than 5 copies/semester of the academic record (or syllabi) a fee of EUR 30,-/copy will be charged. You are, however, very welcome to print your own academic record from Neptun unlimited.

STIPENDIUM HUNGARICUM SCHOLARSHIP AND STUDENT AT RISK SCHOLARSHIP GENERAL REMARKS

- As a new Stipendium Hungaricum student you will need a Hungarian Tax ID and a Hungarian bank account.
- As a Stipendium Scholarship holder you are eligible for the National Health Card (TAJ kártya). So you will be able to use the Hungarian health care system, have medication, have special treatment or go to hospital for longer if necessary for free. You can apply for the TAJ ID and card at the customer service office of the Health Insurance Authority Department (Egészségbiztosítási Hatósági Főosztály I számú ügyfélszolgálat).
- The scholarship holder (participating in bachelor, master or one tier master programme)
- accepts to take part in Hungarian as a foreign language and culture course in the first year of
- her/his studies and as a compulsory obligation he/she has to pass the exam after the two semester-long course.
- The scholarship holder must complete 18 credits on the average of the last two semesters where the student status was not interrupted (i.e., earns a total of 36 credits).
- The scholarship holder must inform the higher education institution if he/she spends more than 10 days consecutively abroad during the study period. In case of more than 30 days consecutively spent abroad the scholarship holder does not receive monthly allowance and accommodation allowance starting from the decision about the permission.
- If you go inactive or passive for a year or a semester, you won't receive the allowances.
- Signing the contract with the institution must be arranged between the scholarship holder and the university.

- The scholarship holder must habitually reside in Hungary during the study period and must inform the higher education institute in case of leaving for a consecutive period of more than 14 days during the study period. In case of failing to meet the requirement of giving information about the stay abroad prior to the travel, the higher education institute has a competency to decide to terminate the scholarship status of the student.
- Tuition-free education – exemption from the payment of tuition fee.

University Skills Lab

The Skills lab of the University is operated at 2 venues: the Small Animal Skills lab (SASL) is in Nádaskay room at the main campus (Istvan street), the Large Animal Skills lab (LASL) activity is at the countryside campus in Üllő, aiming to further encourage and improve students' hands-on competencies using standard or custom made phantoms, models, clinical tools and devices. Skills lab is supervised by the Vice Rector for clinical affairs, managed by the Skills lab director with the student demonstrator team.

Skills lab has 3 types of activities:

- (1) Some of the scheduled small group practical trainings of the Small Animal, Equine or Herd Medicine subjects requiring and practicing manual skills are organised and held at the Skills labs supervised by the concerned faculty member.
- (2) Some thematic manual workshops previously advertised among the students are also held at the SASL organised by the chief Skills lab demonstrator student who has been working with her team of student demonstrators. These Skills lab workshops are supervised by the faculty member who is specialised in the concerned field.
- (3) The rest of the time available for the students is timetabled in the framework of an appointment system when students can use the manual facilities of the lab under supervision by the demonstrator team.

DIPLOMA THESIS AND STATE EXAMS

Thesis can be written under the supervision of any Department. In this matter, the student is advised to contact a department of choice in time (from semester 5 onwards) to ensure a place for the diploma work. The topic and the supervisor have to be indicated latest at registration for the 9th semester with uploading the thesis/TDK announcement form into Neptun!

During the 10th semester within the frame of the subject: Thesis defence, you are required to have a certain number of consultation (5 during the 10th semester) and consultations are required during the 11th semester as well.

One hard copy of the thesis has to be submitted to the department till late November (when the thesis submission is due) of the 11th semester (that will not be returned) and one further bounded hard copy has to be delivered by the student to the state exam committee. The thesis has to be uploaded online as well to Neptun and to the state exam website (www.vetphysiol.hu/zarovizsga). The state exam comprises of the thesis-defence, reporting about the 11th semester and a conversation about professional plans of the graduating student.

The degree or diploma is graded based on the results of the academic exams during your studies with us and the thesis. Diploma grades are: “rite - cum laude - summa cum laude” for “satisfactory – good – excellent”, respectively.

FIREWALLS

There are three firewalls exist in the International Study Programs (for the English and German classes):

1st: between curricular year 2 and 3 (all exams of year 1-2 need to be passed prior to enter the 3rd year)

2nd: between curricular year 4 and 5 (all exams of all subjects which finish by the end of year 4 need to be passed prior to enter the 5th year)

3rd: after the 5th curricular year, prior entering the 11th (practical) semester (all exams of the first 5 years need to be passed prior to enter the 11th semester)

The firewall between year 4 and 5 does NOT apply to those who started BEFORE September 2019 BUT apply for all who started in or after September 2019!

Those who started BEFORE September 2019 (no matter which year they are in) can enter the 5th year with missing exams of year 3 or 4.

CURRICULUM (2024/2025)

Below you find the **core subjects listed** along with their contact-hours; for their content visit www.univet.hu. Do allow lot of time for **autonomous student learning**.

Great emphasis is placed on your **own reflective learning**. For his reason, several hours each week are not timetabled as classes or specified teaching and learning activity. Nevertheless, we encourage you to use the time productively in preparing on a regular basis for classes, reading and other activities that contribute to your learning.

“Education is not received. Its is achieved.”

Anonymus

“Education is not the filling of a pail, but the lighting of a fire.”

W.B. Yeats

“Education comes from within; you get it by struggle and effort and thought.”

Napoleon Hill

1st semester (1st year, Winter-term)

| SUBJECT | LECTURES | WORKSHOPS | ECTS |
|---|----------|-----------|------|

| Veterinary Ophthalmology | 15 | 15 | 1 |
| Prudent Use of Antomicrobial Drugs | 15 | 0 | 1 |

+ *obligatory clinical practice (day and night shifts) with small and large animals*

+ *mobile clinic; *farm visit*

10th semester (5th year, Spring-term)

| SUBJECT | LECTURES | WORKSHOPS | ECTS |
|---|----------|-----------|------|
| Epizootiology & Infectious Diseases 2. | 60 | 30 | 6 |
| Food Hygiene 2. | 60 | 30 | 5 |
| State Veterinary Medicine and Ethics 2. | 30 | 0 | 4 |
| Animal Health Economics and Communication | 30 | 0 | 2 |
| Thesis progress report | 0 | 0 | 10 |

+ *obligatory clinical practice (day and night shifts) with small and large animals*

+ *mobile clinic*

One unit of instruction is a 45-minutes period.

11th semester

| SUBJECT | LECTURES | WORKSHOPS | ECTS |
|------------------------------------|----------|-----------|------|
| Food Hygiene practice | 0 | 80 | 2 |
| State Veterinary Medicine practice | 0 | 80 | 2 |
| Laboratory Diagnostics practice | 0 | 80 | 1 |

| | | | |
|--------------------------------------|---|-----|----|
| Clinical blocks (12 week altogether) | 0 | 480 | 15 |
| Thesis defence | 0 | 0 | 10 |

A 2-week laboratory diagnostics, a 4-week food hygiene / state veterinary medicine (2 weeks each) and three 4-week clinical practical blocks have to be fulfilled during the semester. Every student has to take at least 1 block herd medicine and the remaining 2 clinical blocks can be chosen as equine, herd, small animal or exotic animal medicine.

ELECTIVES

For the exact list of available elective courses and their details (number of hours, credits, timing etc.) please visit the Neptun system – it is edited and updated by the relevant departments. In this booklet you will find a general overview only. Please note also the deadlines for (de)registering in the Neptun system to attend these classes and their exam. In case of elective courses with limited places for participation regular fulltime students come first as opposed to part-time students, inactive and visiting (e.g. ERASMUS-) students. Credits, however, are granted only after the successful exam.

Please note: except the language lessons, minimum number of students is limited in 15 so that the elective course could be held! Below 15, the course will not start (you can see in neptun, how many students are signed up for the elective course). Ad hoc courses held by departments (guest lecturer, meeting etc.) cannot be accepted as credits if not indicated otherwise.

Please also note: from September 2023 students need to collect (out of the 30 ECTS) minimum 18 ECTS credits from B-type electives! (i.e 60% of the elective credits need to be collected from B-type electives, the others i.e max 40% can be collected from C-type).

The current elective course list is sent to students in the beginning of each semester from the Students' Secretariat. Prerequisite subjects of the elective courses (if there is any) can be found in Neptun or contact the Students' Secretariat as well!

Please note: except the language lessons, minimum number of students is limited in 15 so that the elective course could be held! Below 15, the course will not start (you can see in neptun, how many students are signed up for the elective course). Ad hoc courses held by departments (guest lecturer, meeting etc.) cannot be accepted as credits if not indicated otherwise.

Please also note: from September 2023 students need to collect (out of the 30 ECTS) minimum 18 ECTS credits from B-type electives! (i.e 60% of the elective credits need to be collected from B-type electives, the others i.e max 40% can be collected from C-type).

The current elective course list is sent to students in the beginning of each semester from the Students' Secretariat. Prerequisite subjects of the elective courses (if there is any) can be found in Neptun or contact the Students' Secretariat as well!

STUDENTENFÜHRER

(für die internationalen Studiengänge) Akademisches Jahr 238

2024/25

**Veterinärmedizinische Universität Budapest,
Ungarn**

ZEITEINTEILUNG

FÜR DAS AKADEMISCHE JAHR 2024/25

- Feierliche Eröffnung des 238. akademischen Jahres:
Freitag 06. September 2024, 10:00 Uhr; Aula (Bethlen G. u. 20-24.)
- Studienbeginn: Montag, 09. September 2024

WINTERSEMESTER 2024/25

- **Immatrikulation für das 1. deutsche Semester: Donnerstag September 5 um 10.00 Uhr.**
- **Frist für die Zahlung der Studiengebühren (Wintersemester): 20. August 2024**
- **Immatrikulation / Registration** zum 3. Semester (im Neptun) ist ab dem 6. September um 2024 8 Uhr bis 8. September 2024 11 Uhr möglich, Ab dem 13. September nur gegen extra Spesen von EUR 100/Woche, aber spätestens bis zum 29. September- für inaktiven Status bis zum 30. September- möglich. Die Termine beziehen sich auf die Registration im Studentensekretariat, NICHT auf die Überweisungen bzw. das Eintreffen der Studiengebühr. Hinterlegen Sie bitte die Bescheinigung das Eintreffen Studiengebühr, (das Studienbuch) und die Kopie der Aufenthaltsgenehmigung / Registrationskarte bei dem Studentensekretariat!

Ohne immatrikuliert zu sein sind Sie **nicht berechtigt an den Praktika oder Prüfungen teilzunehmen**. Mehr als 30% Abwesenheit zieht den automatischen Ausschluss vom Semester mit sich.

- **Frist für die Exmatrikulation mit (teilweiser) Rückerstattung der Studiengebühr: 30. September 2024.**
 - Woche der „Frischlinge“: 9. – 13. September, 2024
 - Picknick mit Ochsenbraten am 12. September 2024 um 14:00
 - **Vorlesungen und Praktika:** 09. September - 13. Dezember 2024
- **Prüfungen:** 16-23/12/2024 und 02/01 –31/01/2025 (Nachholprüfungen von 1. Dezember)
- **Feiertage:** 23. Oktober (Mittwoch), 1. November (Freitag), 25- 26. Dezember (Mittwoch, Donnerstag), 1. Januar 2025 (Mittwoch)
- **Neptun Termine**
 - Registration und Aufnahme der Pflichtfächer von 6. September 2024. 8.00 Uhr (Freitag) bis 13. September 2024, 11.00 Uhr (Montag), möglich.
 - Aufnahme der Wahlfächer ab dem 7. September 10.00 Uhr (Samstag) – 13. September 2024, 11.00 Uhr möglich
- **Besondere Anlässe in der Aula:**
 - Storchenball: Samstag, 08. November 2024
 - Wissenschaftliche Studentenkonferenz: Dienstag, 19. November, 2024

FRÜHLINGSSEMESTER 2025

- **Immatrikulation / Registration** ab dem 31. Januar um 11 Uhr durch Neptun System bis 10 Februar. 11.00 Uhr möglich, ab dem 17. Februar 2023 nur gegen extra Spesen von EUR100, aber spätestens bis zum 28. Februar – für den inaktiven Status bis zum 17 Februar - möglich. Die Termine beziehen sich auf die Registration bei dem Studentensekretariat, NICHT auf die Überweisungen bzw. das Eintreffen der Studiengebühr. Bitte hinterlegen Sie die Bescheinigung des Eintreffens der Studiengebühr und die Kopie der Aufenthaltsgenehmigung / Registrationskarte bei dem Studentensekretariat!
Bitte füllen Sie die Lehrerbewertung des vorigen Semesters online aus!

Ohne immatrikuliert zu sein sind Sie **nicht berechtigt an den Praktika oder Prüfungen teilzunehmen**. Mehr als 30% Abwesenheit zieht den automatischen Ausschluss vom Semester mit sich.

- Frist für die Exmatrikulation mit (teilweiser) Rückerstattung der Studiengebühr: 28. Februar 2025.
- **Vorlesungen und Praktika:** 03. Februar – 16. Mai 2025 ● **Prüfungen:** von 19. Mai 2024- 27. Juni 2025
- **Feiertage, Semesterferien:**
 - 15. März März (Freitag); Nationalfeiertag
 - 14. April 2025 -21. April 2025 : Frühlingspause
 - 1. April 2024: Osterferien
 - 1. Mai (Mittwoch): Tag der Arbeit
 - 9 Juni : Pfingstmontag
- **Besondere Anlässe:**
 - Jobmesse: Donnerstag, den 13. Februar 2024, 10 Uhr
 - Diplomverleih: den 28. Februar (Freitag) 14.30 Uhr, und den 27. Juni 2028 (Freitag)
 - Konzert der Studenten: Mittwoch, den 9. April 2025, 17 Uhr
 - Equus- (Studenten-)Tage: 22-26. April 2025
 - Internationaler Tag: 23. April 2025 (Mittwoch)
 - Karriertag für die internationalen Studenten: 19. März 2024 (Mittwoch)

AKADEMISCHES JAHR 238

Dieses Heft möchte Sie über einige - für das 238. akademische Jahr zu-treffende - wichtige Termine, bzw. Regelungen der Veterinärmedizinischen Uni-versität, Budapest informieren. Der Inhalt ist vor allem für unsere fremdsprachigen Studenten von Bedeutung. Bitte beachten Sie, dass zwar die Prüfungsordnung und die allgemeine Studieninformationen für das gesamte akademische Jahr zutreffen, einige Angaben (z.B. durch den Rektor für besondere Anlässe gegebenen freie Tage, die Auflistung des Lehrpersonals) geringfügigen Änderungen unterliegen können. Bleiben Sie bitte (persönlich, oder mittels Ihrem Jahrgangsvertreter, bzw. übers Internet) mit dem Studentensekretariat in Kontakt, um jederzeit genaue Informationen zu haben. Die Zulassungsbedingungen und Gebühren sind in der online-Broschüre der Universität enthalten. <https://bewerbung.univet.hu/admin-interface>

Obwohl in diesem Heft zahlreiche Informationen auf Englisch stehen haben wir die für die deutschsprachigen Studiengänge relevanten Angaben auch kurz Deutsch zusammengefasst. *Wir wünschen Ihnen ein erfolgreiches akademisches Jahr!*

Das Studentensekretariat

ALLGEMEINE BEMERKUNGEN

- Jedes akademische Jahr beginnt im September und besteht aus zwei (einem Winter- und einem Frühlings-) Semestern, gefolgt von je einer sechswöchigen Prüfungsperiode.
- **Am Beginn von jedem Semester hat sich der Student (auch inaktive) im Sekretariat für internationale Studiengänge zu immatrikulieren.** Die verspätete Registration zieht extra Spesen (EUR 100/Woche) mit sich. Ohne immatrikuliert zu sein sind Sie nicht berechtigt an den Praktika oder Prüfungen teilzunehmen. Eine Immatrikulation ist nach den angegebenen Stichtagen nicht möglich. Die Voraussetzungen für die Immatrikulation in das nächste Semester sind
 - das abgeschlossene (anerkannte) vorhergehende Semester,
 - die Bestätigung über den Eingang Ihrer Studiengebühren (und der gültigen Krankenversicherung), sowie
 - die Abgabe des Studienbuches und
 - das Vorlegen der Aufenthaltsgenehmigung Registrationskarte im Studenten- sekretariat.
 - die Ausfüllung der Lehrerbewertung (online)

Die Teilnahme an den Lehrveranstaltungen ist Pflicht. Die Anzahl, sowie die Art und Weise, wie eine versäumte Lehrveranstaltung nachgeholt werden kann, wird vom verantwortlichen Lehrstuhlinhaber des gegebenen Faches am Anfang des Semesters festgelegt. Der Lehrstoff bzw. die Informationen, die Sie evtl. versäumt haben sind selbstständig nachzuarbeiten bzw. einzuholen.

Es besteht eine enge Korrelation zwischen Fehlstunden und schwachen Prüfungsergebnissen. Mit fehlenden Praktika kann sa Semester nicht abgeschlossen werden, und somit wird die Prüfungsregistration für das gegebene Fach blockiert. Mehr als 30 % Abwesenheit von Lehrveranstaltungen eines Faches zieht den gesetzlich festgelegten, automatischen-obwohl nicht endgültigen- Ausschluss vom Semester mit sich. Dies gilt unabhängig von dem Grund der Abwesenheit und kann z.B. durch die zahlreichen, zeitlich diversifizierten Prüfungsmöglichkeiten, den evtl. bewilligten erneuten Besuch des Faches und dem inaktiven Status kompensiert werden.

Die Voraussetzung für den Besuch der Anatomie 3 Lehrveranstaltungen ist die bestandene Anatomie 1 Prüfung, die bestandene Anatomie 2 Prüfung wird beim Besuch Topo-Anatomie vorausgesetzt.

Sollten Sie (z.B. wegen Dyslexie) besondere Hilfe benötigen, so geben Sie bitte rechtzeitig im Studentensekretariat Bescheid. Sie sollten ein ärztliches Attest vorzeigen können.

Für Studienberatung oder der Klärung Ihres Studentenstatus wenden Sie sich bitte an das Studentensekretariat.

PRÜFUNGSREGELN VORWORT

(als Richtlinien für die Pflichtfächer; für detaillierte Regelung s. home page)

Testate bzw. Zwischenprüfungen können von den Lehrstühlen organisiert werden, diese werden zu Beginn des Semesters angekündigt.

Die Voraussetzung für die Zulassung zur **Prüfung** ist das abgeschlossene (anerkannte) vorhergehende Semester - bestätigt durch die „Unterschrift“ des für das gegebene Fach verantwortlichen Hochschullehrers im Neptun-System. Das Studienbuch ist bei der mündlichen / praktischen Prüfung vorzulegen; bei Prüfungen sollte sich der Student ausweisen können.

Von den Lehrstühlen wird eine Palette von Prüfungsterminen (innerhalb des angeführten Zeitrahmens) im **Neptun-System** angeboten. Prüfungstermine sind vor dem Ende des Semesters mit dem Lehrstuhl zu vereinbaren. Wenn keine Anmeldung für einen Prüfungstermin (für eine aktuelle, d.h. nicht von einer früheren Periode verschobene Prüfung) erfolgte, oder der Student zu dem ausgewiesenen Zeitpunkt nicht zur Prüfung erscheint, so ist die Chance verloren! Sie können sich gern bereits für eine Prüfung anmelden, auch wenn Sie noch nicht die Voraussetzungen zum Antreten der Prüfung erfüllt haben. Die Frist für die Prüfungsan- bzw. -abmeldung und der Terminänderung ist im Neptun-System angegeben. Allgemein gilt **10Uhr am vorherigen Werktag**, kann aber für jede einzelne Prüfung (auch desselben Lehrfaches!) unterschiedlich sein. Bitte beachten Sie die An- und Abmeldefristen - diese sind ausschlaggebend! Ohne Anmeldung im Neptun ist die Teilnahme an der Prüfung nicht genehmigt.

Mündliche Prüfungen werden i.d.R. nach folgenden Prinzipien gewertet:

1. ungenügend: Die Kenntnisse des Prüflings über sein(e) Thema(en) sind nicht ausreichend; nach erheblichen Fehlern kann er auch grundlegende fachrelevante Fragen des Prüfers nicht beantworten.
2. ausreichend: Die Kenntnisse des Prüflings über sein(e) Thema(en) sind recht eingeschränkt, kann jedoch grundlegende fachrelevante Fragen des Prüfers beantworten.
3. befriedigend: Die Kenntnisse des Prüflings über sein(e) Thema(en) sind akzeptabel, oder lediglich eines der Themen wird eingeschränkt vorgetragen, wobei die anderen gut und sicher dargestellt werden.
4. gut: Die Kenntnisse des Prüflings über sein(e) Thema(en) sind gut, er kann jedoch weitere fachrelevante Fragen des Prüfers nicht beantworten
5. sehr gut: Die Kenntnisse des Prüflings über sein(e) Thema(en) sind sehr gut und er kann auch weitere fachrelevante Fragen des Prüfers beantworten.

Die schriftliche Prüfung wird orientierungsweise wie folgt gewertet: bis 59% = 1, ungenügend, nicht ausreichend; 60 – 69% = 2, genügend, ausreichend; 70 – 79% = 3, befriedigend; 80 – 89% = 4, gut; 90 – 100% = 5, sehr gut. Der Lehrstuhl kann für jede Prüfung eine andere Wertungsskala verwenden und diese hat keine proportionale zu sein. Prüfungsergebnisse werden innerhalb von 3 Arbeitstagen im Neptun-System veröffentlicht.

Die Einsicht in die Klausur bzw. ein Einwand kann innerhalb von 3 weiteren Tagen beantragt bzw. eingereicht werden. Sollte ein Prüfungsergebnis im Neptun nicht (oder falsch) eingetragen sein, so werden Sie gebeten innerhalb von 3 Tagen unter student@univet.hu Bescheid geben.

Sollten Sie eine (erfolgreiche) Prüfung erneut antreten, so gilt diese, zuletzt erzielte Note. Bei dem erneuten Besuch eines Lehrfaches sind die früher erreichten Teilergebnisse (Testate, Unterschrift usw.) des gegebenen Faches ungültig.

Schwindel, Betrug und Plagiat verstossen gegen die akademischen Grundregeln und ziehen evtl. ein Disziplinarverfahren nach sich. Unehrlisches Verhalten bei einer Prüfung beinhaltet u.a. das Abschreiben von anderen, die Anwendung unerlaubter technischer Geräte oder Hilfsmittel. Derartige Fälle werden dem Studentensekretariat gemeldet. Studenten, die schuldig befunden werden erhalten nicht nur für die gegebene Prüfung das Ergebnis "ungenügend", sondern müssen sich evtl. auch einem Disziplinarverfahren stellen, welcher zur Exmatrikulation führen kann.

PRÜFUNGSORDNUNG

Jede Prüfung kann mehrmals angetreten werden:

- dreimal in der aktuellen Prüfungsperiode, d.h. zu dem im Curriculum angegebenen Zeitpunkt, direkt im Anschluss an jenes Semester, in welchem das Teilgebiet gelehrt wurde (Ende Dezember – Anfang Februar bzw. Ende Mai – Ende Juni). Versäumte Möglichkeiten können nicht in einer späteren Periode nachgeholt werden, diese sind **verloren!**
- insgesamt drei weitere, verschobene Möglichkeiten für eine Prüfung stehen innerhalb folgender Perioden zur Verfügung:
 - vom 1. Dezember bis Anfang Februar
 - vom 2. Mai bis Ende Juni(für die Fächer des 4. Semesters innerhalb zwei Wochen um Beginn des Studienjahres).

Die Hauptprüfung eines Faches ist die erste in der aktuellen Prüfungsperiode. Wird diese Prüfung nicht bestanden oder versäumt, so kann der Student in derselben Prüfungsperiode zwei Wiederholungsprüfungen ablegen, wenn im Neptun noch erreichbare Termine und freie Plätze sind. Die letzte Woche der Prüfungsperiode steht i.d.R. lediglich für Wiederholungsprüfungen zur Verfügung. Bitte beachten Sie diese Einschränkungen bei der **Erstellung Ihres individuellen Prüfungsplanes!**

Es ist Ihre Verantwortung die gegebenen Chancen gut zu nutzen! Der zeitliche Mindestabstand zwischen den Prüfungen kann vom Lehrstuhlinhaber des gegebenen Faches festgelegt werden.

Regelungen zu den inaktiven Semestern

Wenn ein Student nicht alle Prüfungen der entsprechenden Firewall bestehen kann (nach dem 4., 8. und 10. Semester), muss der Studentenstatus inaktiv werden. Es wird keine Studiengebühr verlangt, wenn der Student einen inaktiven Status hat, d.h. nur auf die Wiederholung der Prüfung(en) wartet, ohne die Verpflichtung/Erlaubnis zur Teilnahme am Unterricht. In diesem Fall ist jedoch eine Wiederholungseinschreibgebühr von 300 EUR/Jahr

zu entrichten und eine Anmeldung im Studentensekretariat (zumindest per E-Mail) bis Mitte September und Februar erforderlich. Studenten mit inaktivem Status können die fehlenden Zwischenprüfungen und Klausuren nachholen, dürfen aber keine Kurse besuchen. Mit der Einschreibung in den inaktiven Status stehen keine der sechs Prüfungschancen aus dem regulären Status mehr zur Verfügung. Während eines inaktiven Semesters werden jeweils zwei Chancen für die fehlende(n) Prüfung(en) gewährt, d. h. insgesamt vier Prüfungsmöglichkeiten in zwei aufeinanderfolgenden inaktiven Semestern. Nicht genutzte Prüfungschancen können nicht auf das nächste Semester verschoben werden, sie gehen verloren. Die Prüfungschancen können entweder außerhalb oder innerhalb der Prüfungszeiträume genutzt werden, d. h. vom 1. Oktober bis zum Ende des Winterprüfungszeitraums (Anfang Februar) und vom 1. März bis zum Ende des Sommerprüfungszeitraums (Ende Juni) - zu den von den Fachbereichen über das Neptun-System für inaktive Studierende angegebenen Terminen. Bitte beachten Sie, dass inaktive Studierende ermutigt werden, sich vor dem Prüfungszeitraum prüfen zu lassen, da die Zahl der aktiven Studierenden, die im Prüfungszeitraum geprüft werden müssen, hoch ist. Der Fachbereich kann daher entscheiden, ob er Prüfungstermine für inaktive Studierende im Prüfungszeitraum anbietet oder nicht. Bitte informieren Sie sich rechtzeitig über die verfügbaren Prüfungstermine! In den Fächern des 4. und 8. Semesters können inaktive Studierende auch in den zwei Wochen um den Beginn des akademischen Jahres im September geprüft werden, wenn der Fachbereich entscheidet, in diesem Zeitraum Prüfungstermine für Inaktive anzubieten, und wenn der Studierende noch ungenutzte Prüfungschancen aus dem inaktiven Frühjahrssemester hat. Die Teilnahme an der Prüfung ist für Inaktive nicht gestattet, ohne dass sie dafür angemeldet sind. Eine Reaktivierung des Studentenstatus (als Teilzeit- oder Vollzeitstudent) während des inaktiven Semesters ist nicht möglich.

Studierende dürfen maximal zwei Semester hintereinander inaktiv sein. Hat der Studierende nach zwei Inaktivitätssemestern noch nicht alle für die Fortsetzung des Studiums erforderlichen Prüfungen abgelegt, muss der Studierendenstatus beendet werden.

Nimmt man alle aktiven und inaktiven Semester zusammen, haben die Studierenden maximal zehn Prüfungsmöglichkeiten in einem Fach, 3+3 Chancen als aktive Studierende und 2+2 Chancen als inaktive Studierende. Diese Zahlen können unter keinen Umständen überschritten werden, auch nicht im Falle einer Wiederzulassung!

Rückübernahme und Teilzeitstatus

Studenten, deren Studium abgebrochen wurde, können einen Antrag auf Wiederzulassung als Teilzeitstudent stellen. Der Antrag auf Wiederzulassung wird von Fall zu Fall geprüft und ist für jeden Studierenden nur einmal möglich. Eine Wiederzulassung ist nur möglich, wenn der Studierende nur ein Fach zur Fortsetzung seines Studiums fehlen lässt (oder maximal zwei im Falle von Anatomie 3 + Topographische Anatomie oder Pharmakologie 2 + Toxikologie) und er nicht alle zehn Prüfungschancen aus dem betreffenden Fach ausgeschöpft hat. Teilzeitstudenten besuchen den fehlenden Kurs gegen eine besondere Studiengebühr - wenn ihrem Antrag stattgegeben wurde. Der Teilzeitstatus kann nach der Wiederzulassung gewährt werden oder wenn bestimmte Anforderungen eines Fachs (z. B. das Absolvieren von Praktika) nach der Hälfte des Semesters nicht erfüllt sind, so dass das Fach erneut besucht werden muss. In diesem Fall muss ein Antrag auf Wiederholung des Fachs bis spätestens Mitte September

oder Mitte Februar bei student@univet. hu eingereicht werden. Bei der Zulassung zur Wiederholung eines Faches sind frühere Ergebnisse (Zwischenprüfungen, Unterschrift usw.) nicht mehr gültig. Es gelten die gleichen Regelungen (Anwesenheitspflicht, Prüfungstermine etc.) wie für ordentliche Studierende in dem Fach/den Fächern, für das/die er/sie als Teilzeitstudent/in eingeschrieben ist. Für alle weiteren Fächer gelten die Regelungen und Termine der inaktiven Studierenden.

Prüfungen mit Genehmigung des Rektors/Vizerektors für Studium und Lehre als Billigkeitsmaßnahme (gerechte Behandlung)

Wenn ein Student in einem bestimmten Fach die Anzahl der in einem bestimmten Semester zulässigen Prüfungsmöglichkeiten nicht ausgeschöpft hat, kann ihm gestattet werden, eine Wiederholungsprüfung in der ersten Woche des auf den Winterprüfungszeitraum folgenden Frühjahrssemesters oder in dem auf den Prüfungszeitraum des Frühjahrssemesters folgenden zweiwöchigen Zeitraum abzulegen, sofern der Student die betreffende Prüfung bereits versucht hat. In/nach dem zweiwöchigen Prüfungszeitraum (Fächer des 4. Semesters) Ende August / Anfang September kann keine Prüfungsmöglichkeit im Rahmen der Billigkeitsmaßnahmen gewährt werden. Der Antrag auf eine Prüfung mit Genehmigung des Rektors/Vizerektors für Studium und Lehre als Billigkeitsmaßnahme muss spätestens am letzten Tag des Prüfungszeitraums über das Neptun-System gestellt werden.

Eine Prüfungsmöglichkeit im Rahmen der gerechten Behandlung im oben genannten Zeitraum kann vom Rektor gewährt werden, und sie kann nur einmal während des Studiums am UVMB gewährt werden. Weiters kann der Vizerektor für Studium und Lehre eine Prüfungsmöglichkeit innerhalb des oben genannten Zeitraums im Rahmen der gerechten Bbehandlung gewähren, wenn der/die Studierende aus gesundheitlichen Gründen (begründet durch ein ärztliches Attest) an seinem/ihrer letzten angemeldeten Prüfungsversuch nicht teilnehmen konnte.

Bitte beachten Sie, dass keine weiteren Prüfungsmöglichkeiten im Rahmen der gerechten Bbehandlung gewährt werden können, wenn die maximal mögliche Anzahl an Prüfungschancen für das jeweilige Fach und den Prüfungszeitraum/Semester (3 + 3 Chancen für aktive Studierende; 2 Chancen pro inaktivem Semester) bereits ausgeschöpft ist oder die maximal mögliche Anzahl an Prüfungsversuchen (10) des jeweiligen Faches vom Studierenden erreicht wird! Es muss betont werden, dass eine Prüfung unter gerechten Behandlung nur in den oben genannten Fällen und Bedingungen möglich ist!

ZUSAMMENFASSEND ZUM STUDENTENSTATUS FOLGENDE INFO:

Wenn Sie einen inaktiven Studentenstatus haben, so achten Sie bitte auf die für Inaktiven angebotenen Termine. Die für reguläre Studenten angebotenen Plätze stehen Ihnen i.d.R. nicht zur Verfügung, obwohl es evtl. die gleichen Termine sind. Gebühr: EUR 300,-/Jahr

Wenn Sie einen Teilzeitstatus beantragt und bewilligt bekommen haben, dann gelten NUR für das gegebene Fach, für welches Sie registriert wurden dieselben Regeln (Präsenzpflicht, Prüfungstermine usw.), wie für die regulären Studenten. Für alle anderen Fächer sind die Regeln der inaktiven Studenten zutreffend. Bei dem erneuten Besuch eines Lehrfaches sind die früher erreichten Teilergebnisse (Testate, Unterschrift usw.) des gegebenen Faches

ungültig. Der Besuch eines Lehrfach(abschnitt)es ist max. zweimal möglich. Gebühr hängt von der (Art und) Anzahl der besuchten Lehrfächer ab, i.d.R. EUR 500,- oder EUR 2.080/Fach/Semester.

(Sehen Sie bitte Annex.1

Wenn Sie ein regulärer Student (z.B. im zweiten Studienjahr) sind, aber einige Fächer (z.B. „Chemie“) erneut besuchen, dann gelten für ALLE Lehrveranstaltungen dieselben Regeln (Präsenzpflcht, Prüfungstermine usw.), wie September bzw. Mitte Februar unter student@univet.hu zu stellen. Bei dem erneuten Besuch eines Lehrfaches sind die früher erreichten Teilergebnisse (Testate, Unterschrift usw.) des gegebenen Faches ungültig. Die zusätzliche Gebühr hängt von 2080,-/Fach/ Semester.

Wenn Sie „lediglich“ einen regulären, Vollzeit-Status haben, aber ein(ig)e Prü-fung(en) nachholen müssen oder verschoben haben, dann orientieren Sie sich bitte im NeptunSystem an Terminen der Nachholprüfungen. Die Teilnahme an Praktika, dessen Prüfung nachgeholt werden muss, ist nicht genehmigt. Es wird keine zusätzliche Gebühr erhoben.

Wenn Sie einen individuellen Studienplan haben, z.B. wegen Zulassung als Quereinsteiger, dann kontaktieren Sie bitte das Studentensekretariat für detaillierte Informationen.

Sollten Sie sich über Ihren Studentenstatus nicht sicher sein, dann kontaktieren Sie bitte das Studentensekretariat!

Die Unterbrechung vom regulären (Vollzeit-) Studentenstatus an unserer Universität für mehr, als zwei Semester zieht einen automatischen, Ausschluss vom Studium mit sich.

Es stehen für einen Fach(abschnitt) in Budapest max. 10 Versuchsmöglichkeiten zur Verfügung, inklusive inaktiver oder Teilzeit-Status, den erneuten Besuch des Fach(abschnitt)es und der erneuten Zulassung zum Studium.

Bis zum Anfang des 5. Fachsemesters haben die Prüfungsergebnisse keinen Einfluss auf die Immatrikulation.

Die „regelmässige und erfolgreiche Teilnahme“ an Praktika wird nicht separat bestätigt, es gelten die Erfolgsbescheinigungen (z.B. „Unterschrift“) im Neptun-System. Damit wird das Erfüllen der gesetzten Kriterien bestätigt und die Prüfungszulassung erlangt.

Die Leistungsnachweise werden auf Wunsch von dem Budapester Studentensekretariat an die fachlichen Partner direkt zugeschickt, und nicht dem Studenten ausgehändigt.

Sie finden die Akademische Richtlinien und Regelungen hier:

<https://univet.hu/de/universitaet/bestimmungen/>

VERWALTUNG DER BESCHWERDEBEARBEITUNG

Das Student Well-being Program wird von einer ProgrammkoordinatorIn geleitet. Die ProgrammkoordinatorIn kümmert sich um Beschwerden und Vorschläge der Studierenden. Sie können eine offizielle Beschwerde an complaints@univet.hu senden.

Es kann auch anonym behandelt werden.

SOFORTHILFE IN KRISE

Wir möchten Sie ermutigen, Schritte zu unternehmen, indem Sie sich an Universitätsmitarbeiter wenden, wenn Sie sich in einer psychischen Krise befinden oder jemand, den Sie kennen in Gefahr ist.

Hilfspersonen, die Sie kontaktieren können:

CURRICULUM DES 238. AKADEMISCHEN JAHRES

Es wird grosser Wert auf das selbständige Studieren gelegt. Deshalb sind im wöchentlichen Stundenplan zahlreiche Stunden nicht als Vorlesungen oder Praktika eingeteilt. Wir empfehlen Ihnen diese Zeiten effektiv und regelmässig zur Vor- und Nachbereitung von Lehrveranstaltungen zu benutzen. Richtungsweisend gilt ca. 3 Stunden Recherchieren / Unterrichtseinheit.

*“Der Mensch soll lernen,
nur die Ochsen büffeln.”*

Kästner

*“Man muss viel gelernt haben,
um über das, was man nicht
weiss, fragen zu können.”*

Rousseau

1. Fachsemester (2024/25)

| LEHRFACH | VORLESUNGEN | PRAKTIKA | ECTS |
|--|-------------|----------|------|
| Anatomie I. | 30 | 45 | 5 |
| Biophysik und Strahlenschutz | 30 | 0 | 3 |
| Chemie I. | 30 | 30 | 4 |
| Histologie I. | 30 | 30 | 4 |
| Informatik | 15 | 30 | 3 |
| Vergleichende Embryologie | 15 | 0 | 3 |
| Zoologie | 30 | 0 | 3 |
| Grundlagen in tierärztlicher Kommunikation auf Ungarisch | 0 | 30 | 2 |

2. Fachsemester (2024/25)

| LEHRFACH | VORLESUNGEN | PRAKTIKA | ECTS |
|-----------------------------------|-------------|----------|------|
| Anatomie II. | 30 | 45 | 5 |
| Biomathematik | 15 | 30 | 2 |
| Botanik | 30 | 45 | 5 |
| Histologie II. | 30 | 45 | 5 |
| Veterinär- und Lebensmittelchemie | 45 | 30 | 5 |

| | | | |
|--|----|----|---|
| Tierschutz | 30 | 15 | 3 |
| Grundlagen in tierärztlicher Kommunikation auf Ungarisch | 0 | 30 | 2 |

3. Fachsemester (2024/25)

| LEHRFACH | VORLESUNGEN | PRAKTIKA | ECTS |
|--------------------------|-------------|----------|------|
| Anatomie III. | 30 | 45 | 7 |
| Futtermittelkunde | 30 | 15 | 3 |
| Vet.- Genetik | 30 | 30 | 4 |
| Klinische Propädeutik I. | 15 | 30 | 4 |
| Vet.- Biochemie I. | 45 | 15 | 4 |
| Vet.- Physiologie I. | 45 | 15 | 5 |

4. Fachsemester (2024/25)

| LEHRFACH | VORLESUNGEN | PRAKTIKA | ECTS |
|--|-------------|----------|------|
| Klinische Propädeutik II. | 0 | 30 | 3 |
| Tierzucht | 45 | 30 | 6 |
| Topografische- und angewandte Anatomie | 15 | 30 | 5 |
| Vet.- Biochemie II | 45 | 15 | 6 |
| Vet.- Physiologie II. | 60 | 15 | 7 |

Eine Unterrichtseinheit beträgt 45 Minuten.

Weiterführen der Studien- “-Firewall”

Das Studium kann in Budapest auf Englisch weitergeführt werden, um eine Anmeldung (zumindest per Email an student@univet.hu) bis Mitte August wird gebeten. Es ist nicht möglich, das 5. Fachsemester anzutreten, ohne alle Prüfungen (sowohl Praktikumsnoten, als auch Abschlussprüfungen) der Fachsemester 1.-4. abgelegt werden.

Einige Fächer des englischsprachigen Programms (**Agrareconomics, Vet. Professon und Virology**) sind im deutschen Programm nicht enthalten und sollten parallel zum 3.bzw. 4. Semester (oder evtl. nachträglich) besucht werden. Deren Prüfungen sind für Wechsler aus dem deutschen Programm bis zum 7. Semester zu absolvieren. Ein Tierzucht-Praktikum von 2 Wochen ist nach dem 4. Semester, vor dem 5. Budapester Fachsemester erforderlich.

Wir empfehlen Ihnen auf jeden Fall „im 4. Semester Virologie als Pflichtfach zu absolvieren.(->auf Englisch).

Labortierkunde Wahlpflichtfach, und Laboratory Animal Science and Bioetics sind unterschiedlich!!!!!!

Sie können Labortierkunde Wahlpflichtfach nicht als Laboratory Animal Science and Bioetics anerkennen lassen.

Wenn Sie Ihr Studium in Deutschland fortsetzen möchten, beachten Sie bitte u.A. Folgendes: 30 ECTS (Kreditpunkte) von Wahlpflichtfächer bis zum 11. Semester nötig. Laut TAppV sind 84h Wahlpflichtveranstaltungen während der ersten beiden Studienjahre zu besuchen und in den Semesterferien bis zum 3. Studienjahr 2 Wochen landwirtschaftliches Praktikum zu belegen. Details hierzu können Ihnen die deutschen Ausbildungsstellen geben. Laut TAppV sind 84h Wahlpflichtveranstaltungen während der ersten beiden Studienjahre zu besuchen. Nicht alle, in Budapest als Wahlpflicht angebotenen Lehrfächer werden in Deutschland als solche anerkannt – Information diesbezüglich kann Ihnen die jeweilige deutsche Ausbildungsstätte geben.

Die Wahlpflichtfächer starten ab 15 Studenten. Die aktuell angebotenen Fächer und deren Details entnehmen Sie bitte dem Neptun-System. Dieses wird jeweils von den zuständigen Lehrstühlen aktualisiert.

Beachten Sie bitte die Registrationsfristen, um am Kurs (bzw. an der Prüfung) teilnehmen zu können!

Bis zum Ende des 10. Semesters müssen Sie 18 ECTS (60%) von dem Typ B Wahlpflichtfächer, und 12 ECTS (40%) von dem Typ C Wahlpflichtfächer C absolvieren. Typ C kann durch Typ B ersetzt werden: wenn Sie also mehr Typ B Fächer als 18 ECTS haben, können Sie den Rest automatisch als Typ C anerkennen lassen.

BEANTRAGUNG DES STUDENTENAUSWEISES

SCHRITT1 Bitte gehen Sie zu einer Behörde auf ungarisch Okmányiroda/Kormányablak und beantragen Sie einen Studentenausweis.

Nehmen Sie Ihren Personalausweis / Passport, die Immatrikulationsbestätigung und die Aufenthaltsgenehmigung mit.

SCHRITT 2 NEK Formular ins Studentensekretariat bringen

Bitte bringen Sie dieses Formular – während der Sprechzeiten – ins Studentensekretariat. Da erst nach Eingang dieses Formulars Ihr Studentenausweis beantragt werden kann wäre es bitte baldest möglich vorzulegen.

SCHRITT 3 Ihr Studentenausweis ist fertig Sobald die Karte angekommen ist, werden Sie per Email (die im Neptun angegeben ist) von den Kollegen im Sekretariat benachrichtigt.

AUFENTHALT IN UNGARN – WIE ERHALTEN SIE DIE REGISTRIERUNGSBESCHEINIGUNG?

Registrierungskarte/Aufenthaltsgenehmigung)

Studierende aus EU-/EWR-Mitgliedstaaten benötigen für die Einreise nach Ungarn kein Visum, müssen jedoch innerhalb der ersten 90 Tage ihres Aufenthalts ihren Wohnsitz (Adressen) bei der ungarischen Einwanderungsbehörde anmelden. Aufgrund des Zeitpunkts der Verabreichung muss der Antrag spätestens 90 Tage nach der Ankunft eingereicht werden.

Adresse:

1135 Budapest, Bezirk XIII., Szegedi 35-37., Erdgeschoss (Twin Office Center OfficeBlock)

ONLINE REGISTRIEREN AUF ENTERHUNGARY

Besuchen Sie bitte unsere Webseite für die ausführliche Informationen: *Registrierungskarte – Veterinärmedizinische Universität Budapest (univet.hu)*

LOGBOOK

Bei dem Logbook handelt es sich um eine Auswahl betreuter Kompetenzaufgaben aus den in der Veterinärmedizin zu erwerbenden Kompetenzen, die der Veterinärstudent am Ende seines Studiums absolvieren muss, um nachzuweisen, dass er/sie in der Lage ist, eine tierärztliche Praxis aufzunehmen. Das Logbuch ist ein Standarddokument, das von nationalen und internationalen Akkreditierungen gefordert wird.

Die im Tagebuch aufgeführten Kompetenzen müssen bis zum Ende der 11 Praxissemester erfüllt sein, was eine der Voraussetzungen für das Bestehen der Abschlussprüfung ist.

Auf der ersten Seite des Logbooks sind alle Aktivitäten aufgeführt, die für das Staatsexamen absolviert werden müssen.

FREISTELLUNGEN

Studierenden können in bestimmten akademischen Fächern, die sie bereits auf Universitätsniveau studiert haben, freigestellt sein (Man kann komplette Freistellung, Teilfreistellung, und keine Freistellung bekommen)

Zur Beantragung sind eine Kursbeschreibung, ein Modulhandbuch, und ein Transcript erforderlich.

Die Beantragungsfrist: im Wintersemester: 30 September, im Sommersemester: 28 Februar.

ON-CAMPUS STUDENT SUPPORT & COUNSELING SERVICES:

Since 2014 the university offers confidential on-campus student support for all Univet students for free of charge. Students can attend individual or group sessions on-campus up to 8 sessions. You can set appointments in person during the office hours, or online via the appointment booking system: <https://univet.hu/en/education/student-support-counseling-services/>
You can also visit the counseling office with any minor issue during the open office hours without setting an appointment.

The counseling office offers services in regard to the following topics:

- Feeling sad
- Drug and alcohol prevention/problems
- Learning difficulties/problems with academic performance
- Guidance counseling/career orientation
- Teacher-student relational conflict and problems
- Difficulties with establishing relationships/isolation/loneliness
- Living in Hungary (anomalies derived from living abroad)
- Issues related to spirituality and religious life
- Bullying or mobbing concerns
- Eating concerns - Anxiety issues
- Screening for referrals to local psychiatric care or out-patient state/private MH services

Available additional services:

Support group services. Our office offers support groups for international students in various issues (for example: growing up with adverse conditions, addiction, abuse, and other challenges – see service website for more information.

Peer-mentoring program for incoming (first year or transfer) students. Recognizing the challenges of living abroad, we designed a unique peer-mentoring system for first-year students (freshers) titled SAM-buddy peer-mentoring. It aims to assist new students on the 1:1 basis for the period of 8 weeks in the fall semester. Please, learn more about the program by visiting: UNIVET peer-mentoring.

Learning techniques and study method (1 credit) elective course. Medical school tends to demand a lot from students, however, most students arrive with one or two study techniques that may not be suitable to deal with the extremely high volume of materials need to be learned at a rapid pace. The elective course aims to offer insight into other studying methods, ways to save time and energy. Look for course description in the NEPTUN system for more details.

Study-buddy and study-group finder services. In medical school studying collectively to prepare for classes or an exam have a great added value. UNIVET now offers a supplementary experimental, new tool for its students to find study-partners. Visit the service website and click on study-buddy & study-group finder sign up. Once there is a positive match to your search parameters, you will receive a notification and the contact info of the given group/partner you can join.

You can reach here our Student Support Services website:

DEPARTMENTS AND TEACHING STAFF FOR INTERNATIONAL STUDENTS (Academic year 2024/2025)

For the students of semesters 1 - 4 G or E is the abbreviation for the German program and the English program, respectively.

The e-mail addresses indicate the surname.firstname@univet.hu

The Secretariat of International Study Programs can be contacted via the central address *student@univet.hu*

Should you have difficulties in reaching any of our staff members please contact the secretary of the relevant department, <http://www.univet.hu/en/university/staff> or <http://www.univet.hu/en/university/units>.

2024/25 LEHRSTÜHLE UND LEHRKÖRPER FÜR DIE INTERNATIONALEN STUDIENGÄNGE

Bei der Auflistung der Lehrstühle ist nach dem Namen der Sie deutsch unterrichtenden Hochschullehrer ein G (für German) angegeben.

Die E-Mail-Adressen sind zumeist entsprechend folgender Formel angegeben: Familienname.Vorname@univet.hu

Das Studentensekretariat ist unter der zentralen Adresse *student@univet.hu* zu erreichen.

Sollten Sie einen unserer Lehrkräfte nicht erreichen, so wenden Sie sich bitte entweder an die entsprechende Sekretärin, informieren sich auf der home page des Lehrstuhls unter <http://www.univet.hu/de/unsere-fakultaet/organisationseinheiten/> oder <http://www.univet.hu/de/universitat/mitarbeiter>.

CENTRE FOR BIOINFORMATICS

Location: campus, building J, 1st floor

Phone: (+36-1) 478 4242

Head of the Centre: Norbert Solymosi, DVM, PhD, associate professor

Teachers for international students:

Norbert SOLYMOSI, DVM, Ph.D., associate professor

Sára Ágnes NAGY, DVM, Ph.D.-student

Márton János PAPP, DVM, Ph.D.-student

Adrienn Gréta TÓTH, DVM, Ph.D.-student

Elective courses:

Practicals in genomics I & II, An introduction to Python programming Role of traditional ethnoveterinary knowledge and practices in the 21th century

Research activity of the centre:

- Epidemiology studies on infectious (e.g. ASF, PRRS, SARS-CoV-2) diseases and non-infectious health-related events (e.g. heat stress, cancers)
- Metagenomic studies to describe the complex composition of microbiota in various environments (e.g. gut, respiratory tracts, saliva)
- Studies on antimicrobial resistance gene content of different materials linked to animal production systems (e.g. silage, probiotics, fermented and raw milk) and companion animals (e.g. saliva)
- Studies in further microbial genomic topics (e.g. SARS-CoV-2 virus genome analysis)
- In collaboration (with, e.g. Eötvös Loránd University, Semmelweis University, Institute of Experimental Medicine, Veterinary Medical Research Institute, Harvard University) studies on various projects in genomics (e.g. oncology, neurobiology, gastroenterology)
- Development of artificial intelligence solutions (e.g. body condition scoring, lameness detection, subclinical mastitis detection, counting of colony-forming units) for animal production systems

CENTRE FOR ANIMAL WELFARE

Location: campus, building L, 3rd floor

Phone: (+36-1) 478-4100 / 8776

Head of Department: Dr. Szilvia Vetter, LL.D., Ph.D.

Web: <https://univet.hu/en/about/units/center-for-animal-welfare-univet-budapest/>

E-mail: allatvedelmikozpont@univet.hu

Facebook: <https://www.facebook.com/AllatvedelmiKozpont/>

Short introduction:

The newly established Legal-, Analysis and Methodology Center for Animal Welfare at the University of Veterinary Medicine Budapest provides a multidisciplinary scientific background for the theory and practice of animal welfare. The Center is a knowledge base that transfers up-to-date animal protection skills in veterinary education, and organizes trainings, conferences for non-veterinary specialists, civilians and the public, too. The Center for Animal Welfare started its operation on January 1, 2021 as a new organizational unit of the University of Veterinary Medicine Budapest.

Colleagues of the Center:

Dr. Szilvia VETTER, LL.D., Ph.D., Head of Center

Dr. Adrienn GYURCSÓ, DVM, Director of Continuing Education

Dr. Szabina TÓTH, DVM

Dr. Gábor LORÁSZKÓ, DVM, External Lecturer

Éva MÁRKUS, Office Manager

Compulsory subject:

Comparative animal protection

Elective subject:

Veterinary photography

Research activity of the department:

- International trends, best practices, “hot-spots” and conflicts of animal welfare.
- Relevant constitutional, civil, administrative and criminal law institutions and their practical application in the field of animal welfare.
- Animal cruelty from the perspectives of related disciplines, such as psychology, criminology, sociology, philosophy.
- The history of animal welfare, animal welfare ethics.
- The welfare of pets, farm animals and wild animals.
- Communicational and economic aspects of animal welfare.
- Animal welfare aspects of zoos, circuses, hunting and tourism.
- Operation and cooperation of different actors of animal welfare at the system level

DEPARTMENT AND CLINIC OF EQUINE MEDICINE

Location: Üllő, Dóra major, field station (cca. 35 km from the main campus at István utca)

Phone: (+36)-29-521-300

Secretary: Mrs Edina Pataki, email: pataki.edina@univet.hu

Head of Unit: Mr Gábor BODÓ, DVM, DSc, Dipl. ECVS, Professor

Teachers for international students:

Mr Gábor BODÓ, DVM, D.Sc., Dipl. ECVS, Professor

Mr Zoltán BAKOS, DVM, Ph.D., Dipl. ECEIM, Associate professor

Ms Annamária NAGY, DVM, Ph.D., Dipl. ECVSMR/ACVSMR, Assoc.prof.

Mr József TÓTH, DVM, D.Sc., Emeritus Prof.

Ms Zita MAKRA, DVM, Associate professor

Mr Péter TÓTH, DVM, Ph.D., Assistant professor

Mr Pál TUSKA, DVM, senior clinician

Mr Simon IZING, DVM, senior clinician

Ms Emese BÓDAI, DVM, clinician

Ms Zsófia Pál, DVM, ECVS resident

Mrs Flóra KOCSIS-SÁNTA, DVM, clinician

Ms Dóra ANGER, DVM, clinician

Mrs Petra CSILÓ VÉKEI, DVM, clinician

Ms Anna MÉSZÁROS, DVM, clinician

Ms Anita NAGY, DVM, clinician

Mr. Koppány BOROS, DVM, clinician

Mr. Balázs LAMBERTUS, DVM, clinician

Mr. Péter SZOBONYA, DVM, clinician

Mr Zsolt ORMÁNDI, blacksmith

Compulsory subjects:

Equine Medicine and Surgery 1,2,3

Research activity of the department:

MRI of the prox. Metacarpal region

Comparative CT and radiographic examination of the hock

Osteochondral transplantation into the weight-bearing joint surface in horses. Usefulness of needle view arthroscopy in the navicular bursa in horses.

Fracture repair in horses.

Arthroscopic evaluation of OC fragments causing OA in the fetlock joint in horses.

Evaluating correlation of animal behaviour and different colic diagnosis based on colic surgery or clinicopathological evaluation.

Clinical effects of electro and infrared therapy in the rehabilitation of the equine patient

Equine Internal medicine: lower respiratory diseases, research in equine cardiology

DEPARTMENT AND CLINIC OF SURGERY

Location: campus, Building B

Phone: (+36-1) 478-4195

Secretary: Ms Gyöngyi Zakar, zakar.gyongyi@univet.hu

Head of Department: Mr Tibor NÉMETH, DVM, PhD, Dipl. ECVS, Professor

Teachers for international students:

Mr Tibor NÉMETH, DVM, Ph.D., Dipl. ECVS, Professor

Mr Attila ARANY-TÓTH, DVM, Ph.D., Associate Professor

Mr Miklós Pál DUNAY, DVM, Ph.D., Associate Professor

Ms Kata VERES-NYÉKI, DVM, Ph.D., Dipl. ECVA, Associate Professor

Ms Dorottya ZÓLYOMI, DVM, Ph.D., ECVS-resident, Assistant Professor

Mr Zsolt SZENTGÁLI, DVM, Associate Professor

Mr Péter MOLNÁR, DVM, Assistant Professor

Mr Tamás IPOLYI, DVM, Clinician

Ms Panna GYŐRI, DVM, Clinician

Ms Zsófia JUHÁSZ, DVM, ECVS-resident

Mr Bence SEBESZTHA, DVM, Clinician

Ms Csilla SIMON, DVM, Clinician

Ms Teodóra HOLLÓ, DVM, Clinician

Ms Zsuzsanna PARÉJ, Clinician

Ms Luca ROMPOS, DVM, Clinician

Ms Réka WÁGNER, DVM, Clinician

Compulsory subjects:

Small Animal Medicine 1-4, Veterinary Ophthalmology

Research activity of the department:

Small animal soft tissue surgery – BAOS, Perineal hernia

Small animal orthopaedics – TTA, arthroscopy

DEPARTMENT OF ANATOMY AND HISTOLOGY

Location: campus, building E/1

Phone: (+36-1) 478-4225

Fax: (+36-1) 478-4224

Secretary: titk.anatomia@univet.hu

Head of Department: Mr Péter SÓTONYI, DVM, Ph.D., Professor

Teachers for international students:

Mr Péter SÓTONYI, DVM, Ph.D., D.Sc., Professor (G)

Ms Katalin HALASY, M.Sc., Ph.D, D.Sc., Professor (E)

Mr Bence RÁCZ, M.Sc., Ph.D., D.Sc. Professor (G+E)

Mr Ferenc SZALAY, DVM, Ph.D., Associate professor (E)

Ms Andrea HEINZLMANN, MD, Ph.D., Associate professor (G+E)

Ms Diána HAZAI, M.Sc., Ph.D., Assistant professor (E)

Mr László Zoltán REINITZ, DVM, Ph.D, Assistant professor (G+E)

Mr Mátyás KAPILLER, DVM, Assistant professor (G + E)

Mr. Milán KONDOR, DVM, Junior lecturer (E)

Mr Gábor LORÁSZKÓ, DVM, Ph.D., invited lecturer (G)

Ms Szilvia KOVÁCS, DVM, Ph.D., Assistant professor (E)

Ms. Réka STIRMINSZKI, DVM, Junior lecturer (E)

Mr Attila MAGYAR, DVM, Ph.D., invited lecturer (G)

Compulsory subjects:

Veterinary anatomy, Veterinary histology, Biology, Veterinary Profession

Research activity of the department:

Neurobiology: Structural and behavioral basis of the hypothalamic feeding- and hunger-circuitry; Neurobiology of aging; Structural background of neuropsychiatric diseases; Electron microscopic structure of the excitatory mammalian synapses

Developmental biology: Normal and pathological development of the dog's visceral organs

Macroscopic anatomy: Surgical exploratory anatomy of the dog; Application of modern imaging techniques in veterinary anatomy: CT and MRI imaging of the dog, swine, sheep and horse; Avian anatomy, Equine dentistry and horseshoeing, Development of multimedia courseware in anatomy and histology; Operation Techniques on Cadaver Studies - soft tissue surgery,; Operation Techniques on Cadaver Studies - orthopedic surgery

DEPARTMENT OF ANIMAL HYGIENE, HERD HEALTH AND MOBILE CLINIC

Location: campus, building J, 2nd floor Phone:
(+36-1) 478-4242

Secretary: Mrs Klára Csollány, email: csollany.klara@univet.hu

Head of Department: Mr László KÖNYVES, DVM, Ph.D., habil, Associate professor

Teachers for international students:

Mr Endre BRYDL, DVM, C.SC., Dipl. ECBHM, Professor emeritus

Mr Pál RAFAI, DVM, D.SC., Professor emeritus

Mr László KÖNYVES, DVM, Ph.D., habil, Associate professor

Mr Péter KOVÁCS DVM, Master lecturer

Ms Eszter LOSONCZI, DVM, Ph.D., Senior lecturer

Mr Csaba PRIBENSZKY, DVM, Ph.D., Senior research fellow

Mr László KOVÁCS, DVM, Ph.D-student, junior lecturer

Ms Márta BÓNA, DVM, Ph.D. student

Ms Barbara VASS-BOGNÁR, DVM, Ph.D. Senior lecturer

Mr János LEHOCZKY, DVM, titular Associate professor

Ms Ágnes FREILER-NAGY, Research fellow

Mr Péter HEJEL Ph.D., Researcher

Mr Roland SÍPOS, DVM, Ph.D-student, junior lecturer

Mr Balázs BERLINGER, Ph.D. Senior research fellow

Ms Zsóka VÁRHIDI, DVM, Ph.D.-student

Ms Benjamin ZÁKÁNY, veterinarian

Ms Gerda DOMAFÖLDI, veterinarian

Compulsory subjects:

Applied Ethology, Animal Hygiene and Herd Health, Clinical Practice of Farm Animals (11th semester)

Prerequisite of the acceptance of Animal Hygiene and Herd Health subject is to participate in a Farm Animal Herd Health Practical (farm visit). Mobile Clinic (on farm practicals)

Main research activities of the department:

- Herd health control programs for farm animals
- Diagnosis and prevention of metabolic disorders in ruminants
- Diagnosis and prevention of management related and multifactorial diseases of farm animals
(Hoof diseases of dairy cattle, mastitis of dairy cows etc.)
- Welfare and well-being of farm animals
- Precision livestock farming
- Environmental physiology of farm animals
- Monitoring of mineral and heavy metal content of feeds and water
- Assisted reproduction protocols for farm animals
- Environmental emissions of livestock and poultry production
- Biosecurity of livestock and poultry production
- Precision livestock farming technologies (PLF)

DEPARTMENT OF BIOSTATISTICS

Location: campus, building L and N, 3rd floor

Phone: (+36-1) 478-4213, email: biostat@univet.hu

Secretary: Ms Dalma Beck, email: beck.dalma@univet.hu

Head of Department: Ms Andrea HARNOS, Ph.D., Associate professor

Teachers for international students:

Ms Andrea HARNOS, Ph.D., Associate professor (E)

Mr Zsolt LANG., Ph.D., Senior Research fellow (E)

Mr Péter FEHÉRVARI, Ph.D., Research fellow (E)

Mr Zsolt ABONYI-TÓTH, M.Sc., Senior lecturer (E)

Ms Szilvia KÖVÉR, Ph.D., Research fellow (E)

Ms Bettina PASZERBOVICS, Assistant lecturer (E)

Ms Ágnes KOVÁCS, Ph.D. Assistant professor (E)

Mr Jenő REICZIGEL, Ph.D., D.Sc., Professor (G)

Mr István VÁLYI, Ph.D. (G)

Ms Mikolt BAKONY, Ph.D. (G)

Mr Zoltán ELEK, Ph.D., D.Sc., Associate professor (E)

Compulsory subjects:

Biomathematics, Informatics

Research activity of the department:

Applied statistics, with special interest in

- Exact tests and confidence intervals
- Resampling methods
- Statistical methods in parasitology research and bird migration
- Diversity and crowding indices
- Meta-analysis methodology
- Bayesian methods in Veterinary research
- Multiware analysis of species-sites data
- Diversity ordering methods
- Statistical methods for the analysis of animal communities

DEPARTMENT OF BOTANY

Address: 1077 Budapest, Rottenbiller u. 50.

Phone and fax: (+36-1) 478-4237

Secretary: Mrs Beata Varga Szabóné, email: szabone.varga.beata@univet.hu

Head of Department: Mr Dániel CSERHALMI, M.Sc., Ph.D., associate professor

Teachers for international students:

Mr János VETTER, M.Sc., Ph.D., D.Sc, Professor emeritus (G+E)

Mr Dániel CSERHALMI, M.Sc., Ph.D., Associate professor (E)

Ms Evelin Ramóna PÉLI, M.Sc., Ph.D., Associate professor (E)

Ms Judit HÁZI, M.Sc., Ph.D., Associate professor (G)

Mr Gergely KUTSZEGI, M. Sc, Ph.D.,Assistant research fellow (E)

Ms Katalin GERENCSÉR FERENCNÉ, M.Sc., Senior academic staff (G)

Mr Tamás Róbert VARGA M.Sc., Ph.D., Associate professor (E)

Mr Zoltán VINCZE, M.Sc., Ph.D. Associate professor (G+E)

Mr Mihály Viktor PILIPECZ, M.Sc., Ph.D., Senior lecturer (E)

Ms Zita BALATONI-OLÁH, Ph.D., Assistant professor (E+G)

Mr Péter MAGYAR, Department chemist (E)

Biophysics

Mr Zoltán SZŐKEFALVI-NAGY, M.Sc., Ph.D., D.Sc., Professor (E)

Mr Imre Ferenc BARNÁ, M.Sc., Ph.D., Senior research fellow (G)

Compulsory subjects:

Chemistry, Veterinary and food chemistry, Biophysics

Research activity of the department:

The research projects are directed to organic syntheses in the area of nitrogen containing heterocycles, alkaloids and other natural products. Some works are carried out in contract research with the pharmaceutical industry in order to synthesize biologically active new compounds. The structure elucidation and stereochemistry of synthesized molecules are achieved by application of modern spectroscopic methods.

DEPARTMENT OF CLINICAL PATHOLOGY AND ONCOLOGY

Location: campus, secretary: building A 1st floor, practicals are held in building O (entrance from the student centre side)

Phone: (+36 1) 478 4141

Fax: (+36 1) 478 4129

Secretary: soos.aniko@univet.hu

Head of Department: Mr Péter VAJDOVICH, DVM, Ph.D., Dipl. ECVCP., Associate professor

Teachers for international students:

Mr Péter VAJDOVICH, DVM, Ph.D., Dipl. ECVCP., Associate professor

Mr Márton MÁRIALIGETI, DVM

Mr Milán MISKOLCZI, DVM

Ms Judit JAKUS, Ph.D., biochemist

Ms Anna BERTA, DVM

Compulsory subjects:

Veterinary pathophysiology, Laboratory Diagnostics, Oncology

Research activity of the department:

Clinical pathology research

Development of laboratory methods for inflammatory and haemostasis parameters. Evaluation of different methods in the development of multidrug resistance in canine neoplastic diseases. Development of cytochemistry in fine needle aspiration cytology samples. Evaluation of tyrosine kinases and Poly (ADP-ribose) polymerases (PARPs) as well as COX2 in canine neoplasia (lymphoma, mast cell tumour, and mammary gland tumour).

Clinical research

This research field includes the following subjects: diagnostics, therapy and the evaluation of prognostic indices of canine, feline and exotic pet animal neoplastic diseases.

DEPARTMENT OF EXOTIC ANIMAL AND WILDLIFE MEDICINE

Location: campus, building B

Phone: (+36-1) 478-4140

E-mail: galambos.eszter@univet.hu

Head of department: Mr. János Gál, DVM, Dipl. ECZM, Professor

Teacher for international students:

Mr János GÁL, DVM, DSc., Dipl. ECZM, Professor

Mr Miklós MAROSÁN, M.Sc., Ph.D., Associate professor

Mr Ferenc BASKA, PhD. habil, Associate professor

Ms Anna Linda NÓGRÁDI, DVM, Ph.D.-student

Ms Dóra CSATÁRI, DVM, Ph.D.-student

Mr Antal PAPP, DVM, Clinician

Ms Tünde KANYORSZKY, DVM, Clinician

Mr Árisz ZISZISZ, DVM, PhD. student

Compulsory subjects:

- Exotic animal medicine ● Fish medicine

Research activity of the department:

- Exotic animal pathology focusing on tumours in companion animals
- Examination of exotic animal mortality caused by malnutrition and keeping problems
- Exotic animal gerontology

- Game bird medicine
- Reptile medicine
- Comparative analysis of age estimation methods in game animals

DEPARTMENT OF FOREIGN LANGUAGES

(For updates pls see <https://univet.hu/en/about/units/department-of-foreign-languages>)

Location: campus, building N

Phone: (+36-1) 478-4173

Secretary: csefalvayova.judit@univet.hu

Head of Department: Ms Andrea TEREI-BÁN

Teachers in the English Programme:

Ms Krisztina HARTMANN (Latin)

Mr András LUKÁCS Ph.D. (Hungarian)

Ms Krisztina NYIREDY (Spanish)

Mr Rudolf RADENHAUSEN (German)

Ms Andrea TEREI-BÁN (Hungarian)

Ms Ilona TUNKLI (Hungarian)

Teachers in the German Programme:

Ms Ibolya BELLUS (Latin)

Ms Nikoletta NAGY (English)

Ms Judit POPRÁDY (German)

Mr Rudolf RADENHAUSEN (Latin)

Mr József SZASZOVSKY (Latin)

Elective courses for international students:

Hungarian A1/1 to A2/2, Hungarian History and Culture, Basic Hungarian, Clinical Hungarian, Medical Latin, German for Beginners, Spanish for Beginners, Veterinary English (German Programme)

DEPARTMENT OF INTERNAL MEDICINE

Location: campus, Building A

Phone: (+36-1) 478-4132

Head of Department: Mr Roland PSÁDER DVM, Ph.D., Associate Professor

Secretary: Ms Mária KOLONUSZ BŰCSÚNÉ, bucsune.kolonusz.maria@univet.hu

Teachers for international students:

Mr Ferenc MANCZUR, DVM, Ph.D.

Mrs Zsófia, ARADI, DVM, Clinician

Ms Éva BALOGH, DVM, Ph.D., Senior lecturer

Mr. Márton BALOGH, DVM, Ph.D., Assistant lecturer

Mr Zsolt BECKER DVM, Ph.D., Assistant lecturer

Mr Zoltán DUDÁS GYÖRKI DVM, Ph.D., Senior lecturer

Mrs Fruzsina FALUS, DVM, Assistant lecturer

Ms Nora GULYÁS, DVM, Clinician

Mr. Csaba HETYEY, DVM, Ph.D., Senior lecturer

Mr.Gergely KISS, DVM, Clinician

Mr. Ákos MÁTHÉ, DVM, Ph.D., Associate professor

Ms. Kinga PÁPA, DVM, Ph.D., Senior lecturer

Mr. Roland PSÁDER, DVM, Ph.D., Associate professor

Ms. Ágnes STERCZER, DVM, Ph.D., Associate professor

Ms. Korinna SZABÓ, DVM, Assistant lecturer

Ms Viktória SUBA, DVM, Clinician

Mrs Noémi TARPATAKI, DVM, Ph.D., Dip ECVD Associate professor

Ms. Zsuzsanna VIZI, DVM, dipl ECVIM-CA (internal med.)

Compulsory subjects:

Small Animal Medicine I-IV, Clinical Propedeutics, Clinical practice

Current main research areas in the Department of Internal Medicine

1. Hepatobiliary diseases of dogs 1.a Pathogenesis of Chronic hepatitis.

I. The copper and hepatitis E as a possible causative agent

1.b Portosystemic shunt and hepatic encephalopathy (HE)

- I. neuroinflammatory background of HE
 - II. the role and effect of lactulose and psyllium in the treatment of HE
 - III. the role of rifaximin in the treatment of HE
 - IV. The role of hepcidin in pathogenesis of PSS
2. The role of hepcidin in the iron metabolism and its effect in anemic patients
 - a. Establishing the normal hepcidin level in healthy dogs
 - b. Detection of hepcidin level and possible role in anaemic patients
 3. Pathogenesis of pancreatitis
 - a. Examination of the composition of early enteral feeding fluid in experimental model and spontaneous pancreatitis
 - b. Diagnostic markers of acute pancreatitis
 4. Nephrology
 - a. Survival of proteinuric dogs, factors affecting survival
 - b. hemodialysis treatment application in dogs with acute kidney injury
 5. Gastroenterology
 - 5.a the role of cytokines (especially TNF- α) and their effects on the intestinal mucosa in chronic enteritis patients.
 - 5.b Development of a canine intestinal epithelial cell – monocyte derived coculture. Protein production related to inflammatory processes (e.g., cytokines) and their regulations will be studied in the experiments. Intestinal epithelial barrier function and permeability of tight junctions will be also followed up, using qualitative and quantitative methods. Moreover, anti-inflammatory effect of alternative food additives such as probiotics will be measured.
 6. Translational medicine

Use of companion animal (dog, cat, ferret) GI and respiratory diseases as a model in imaging, nuclear diagnostics, and high-resolution spectral CT diagnostics.

▷ DEPARTMENT OF MICROBIOLOGY AND INFECTIOUS DISEASES

Address: 1143 Budapest, Hungária krt. 23-25.

Phone: (+36 1) 478-4100/ext. 8157

E-mail: jarvanytan@univet.hu

Head of Department: Mr Miklós TENK, DVM, Ph.D., Associate professor

Teachers for international students:

Mr János VARGA, DVM, Ph.D., D.Sc., Member of the Hun. Academy of Sci., Prof. emeritus

Mr László FODOR, DVM, Ph.D., Professor

Mr Miklós TENK, DVM, Ph.D., Associate professor

Ms Anna KOLLÁR, DVM, Ph.D., Senior lecturer

Ms Márta LŐRINCZ, DVM, Ph.D., Senior lecturer

Ms Petra FORGÁCH, DVM, Ph.D., Senior lecturer

Mr Károly ERDÉLYI, DVM, Ph.D., Dipl. EBVS., ECZM., Research fellow

Mr Gábor ANDÓCS, DVM, PhD., Research fellow

Mr András MAROSI, DVM, Ph.D., Senior lecturer

Mr Levente SZEREDI, DVM, Ph.D., Senior lecturer

Mr András ADORJÁN, DVM, PhD., Senior lecturer

Ms Csenge TOLNAI, DVM, Assistant lecturer, Ph.D.-student

Ms Dóra FÖLDI, DVM, Assistant lecturer, Ph.D.-student

Ms Éva SZÜCS-SOMLYÓ, DVM., Assistant lecturer, Ph.D.-student

Ms Réka TÓTH, Biologist, technical assistant

Mr Dominik Ádám GULYÁS, Assistant lecturer, Ph.D.-student

Mr Gergely TÓTH, DVM, Assistant lecturer, Ph.D.-student

Compulsory subjects:

Veterinary virology, Veterinary bacteriology, Veterinary immunology, Epidemiology and infectious diseases, Quantitative veterinary epidemiology

Research activity of the department

Research activity of the department is focused on the pathogenic agents belonging to several bacterium genera (Actinobacillus, Avibacterium, Campylobacter, Erysipelothrix, Francisella, Haemophilus, Histophilus, Mannheimia, Paenibacillus, Pasteurella, Rhodococcus and

Mycoplasma), virus families (Adenoviridae, Arteriviridae, Bornaviridae, Bunyaviridae, Circoviridae, Dicistroviridae, Coronaviridae, Flaviviridae, Herpesviridae, Hepeviridae, Paramyxoviridae, Parvoviridae, Reoviridae and Retroviridae) and the diseases that they cause in farm, wild living and pet animals with special attention to zoonotic agents. Research on the immune reactions of animals help to understand the aspects of pathogenicity and prevention, enable the development of new vaccine candidates, and promote the prevention and control of infectious diseases. Animal tumour immunology is also addressed, especially in pet animals.

DEPARTMENT OF OBSTETRICS AND FARM ANIMAL MEDICINE CLINIC

Location: campus, building L+N; Food Animal Clinic: Űllő, Dóra major, field station

Phone: (+36-1) 478-4206; Food Animal Clinic: (+36-29)-521-306

Secretary: tookos.emese@univet.hu

Head of Department: Mr József RÁTKY, DVM, Ph.D. D.Sc.

Teachers for international students:

Mr Laszlo SOLTI, DVM, Ph.D. D.Sc., member of the Hun. Academy of Science,

Professor and Rector Emeritus

Mr Sándor CSEH, DVM, Ph.D. D.Sc., Professor

Mr József RÁTKY, DVM, Ph.D. D.Sc., Professor

Mr Ottó Ferenc SZENCI, DVM, D.Sc., Professor emeritus

Mr András HORVÁTH, DVM, Ph.D., associate professor

Mr Zoltán SZELÉNYI, DVM, Ph.D., senior lecturer

Ms Lea LÉNÁRT, DVM, Ph.D.-student

Ms Anna CSEPREGHY, DVM, clinician, Ph.D.-student

Ms Linda MÜLLER DVM, Ph.D., clinician, senior lecturer

Ms Dóra KISPÁL, DVM, clinician

Mr Kristián ERDEI, DVM, clinician

Ms Szilvia FARKAS, DVM, Ph.D., clinician, senior lecturer

Ms Eszter SZILÁGYI, DVM, clinician

Mr Bence SOMOSKŐI, MSc., Ph.D., Research fellow Ms Mónika BACSA, DVM, Ph.D.-student

Ms Boglárka VINCZE, DVM, Ph.D., senior lecturer

Compulsory subjects:

Farm Animal Medicine; Reproduction & Biotechnology; Propedeutics of internal medicine

Research activity of the department:

- In vivo and in vitro studies of reproductive physiology
- Male animal reproduction, infertility treatment of males, traditional and computer assisted semen analyses. Assisted reproduction and reproductive biotechnology including oestrous synchronization, artificial insemination, superovulation and embryo transfer, cryopreservation of gametes and embryos, in vitro fertilization, in vitro embryo culture, etc.
- Quantitative and qualitative optimization of reproductive performance in domestic animals.
- Gene preservation of high value and endangered breeds
- Determination of hormones and some mycotoxins by ELISA, development of rapid on farm immunoassays.
- Embryonic mortality, reproductive ultrasonography in cattle, calcium-metabolism in the peripartal period and uterine involution in cattle, respiration physiology of the new-born calf.
- Endocrinology of reproduction, ovarian activity and reproductive disorders in domestic animals, pancreatic, adrenocortical and thyroid malfunctions
- Reproductive physiology of commercial and indigenous domestic animals

DEPARTMENT OF PARASITOLOGY AND ZOOLOGY

Location: campus, building A – first floor

Phone: (+36-1) 478-4190

Fax: (+36-1) 478-4193

Secretary and Coordinator: kovacs.regina@univet.hu

Head of Department: Mr Sándor HORNOK, DVM, Ph.D., D.Sc., Professor

Teachers for international students:

Mr Sándor HORNOK, DVM, Ph.D., D.Sc., Professor (E)

Mr Róbert FARKAS, DVM, Ph.D., D.Sc., Professor (E)

Mr Sándor SZEKERES, M.Sc., Ph.D., Senior lecturer (E+G)

Mrs Barbara TUSKA-SZALAY, DVM, Ph.D.-student, Veterinarian (E)

Mr Gergő KEVE, DVM, Ph.D.-student, Veterinarian (E)

Mr Andor PITÓ, DVM, Ph.D.-student, Veterinarian (E)

Ms Nóra TAKÁCS, M.Sc., Departmental engineer (E)

Compulsory subjects:

Zoology, Veterinary Parasitology, Bee diseases, Ecological and Evolutionary Parasitology

Research activities of the department:

Seroepidemiology of infections with protozoa of veterinary importance. Vectors and vector-borne diseases of domestic and wild animals. Epidemiology of tick-borne pathogens. Nematode and cestode infections of livestock and companion animals. Parasitooonoses.

DEPARTMENT OF PATHOLOGY

Location: István street campus, building E/2 and Üllő campus

Phone: (+36-1) 478-4178

Secretary: Szoke.Tunde@univet.hu

Head of Department: Ms Míra MÁNDOKI, DVM, Ph.D., Professor

Teachers for international students:

Small animal pathology (István street campus):

Ms Míra MÁNDOKI, DVM, Ph.D., Professor

Mr Gyula BALKA, DVM, Ph.D., Associate professor

Ms Anna SZILASI, DVM, Ph.D. Senior lecturer

Mr Dávid Géza HORVÁTH, DVM, Ph.D. student, Assistant professor

Mr Péter Ferenc DOBRA DVM, Ph.D. student, Clinician

Ms Dorottya CSÁSZÁR, DVM, Ph.D. student, Clinician

Ms Julia GILBERT, DVM, Clinician

Large animal pathology (Üllő campus):

Mr Imre BIKSI, DVM, Ph.D., Associate professor

Mr Zoltán László NÉMET, DVM, Ph.D. Senior lecturer

Mr Ervin ALBERT, DVM, Ph.D., Senior lecturer

Ms Katalin KINCSES-JANOSI, DVM, Ph.D., Research fellow

Mr István Emil KIS, DVM, Clinician

Compulsory subjects:

General Pathology

Special Pathology 1-3

Research activity of the department:

The research activities cover a broad spectrum of diseases, pathogens, and host species, including viral, bacterial, and parasitic diseases of poultry, and domestic mammals, as well as different non-infectious diseases and neoplastic changes of the mentioned species.

Members of the staff besides having strong expertise in molecular investigation techniques (i.e. polymerase chain reaction, primer design, phylogenetic investigations of different pathogens, epizootiological investigations) are skilled in light and electron microscopy, histopathology, immunohistochemistry, in situ hybridization. Digital pathology is also one of the major developing areas at the department.

DEPARTMENT OF PHARMACOLOGY AND TOXICOLOGY

(For updates pls see <http://www.univet.hu/en/university/units/department-of-pharmacologyand-toxicology>)

Location: campus, buildings R and S

Phone: (+36-1) 478-4160, Fax: (+36-1) 478-4172

Secretary: Ms Zsuzsa Berényi, email: berenyi.zsuzsa@univet.hu

Head of Department: Mr Ákos JERZSELE, DVM, Ph.D., Associate Professor

Teachers for international students:

Mr Ákos JERZSELE, DVM, Ph.D., Associate professor

Mr György CSIKÓ, DVM, C.Sc., Associate professor

Ms Orsolya FARKAS, M.Sc., Ph.D., Senior research fellow

Ms Erzsébet GERE PÁSZTINÉ, M.Sc., Ph.D., Senior research fellow

Ms Dóra KOVÁCS, DVM, Ph.D., Assistant professor

Ms Orsolya PALÓCZ, M.Sc., Ph.D., Research fellow

Mr Csaba KÖVÁGÓ, DVM, Ph.D., Research fellow

Mr Gábor NAGY, M.Sc., Research fellow

Ms Adrienn Mercedesz VERES, DVM, Junior lecturer

Ms Zita KARANCSI, DVM, Ph.D., Junior lecturer

Mr Zoltán SOMOGYI, DVM, Junior lecturer

Mr Ádám Kerek, DVM, Junior lecturer, Ph.D. student

Ms Alma Virág MÓRITZ, DVM, Junior lecturer, Ph.D. student

Mr Patrik MAG, DVM, Junior lecturer, Ph.D. student

Compulsory subjects:

Veterinary pharmacology, Veterinary toxicology, Prudent use of antimicrobial drugs

Research activity of the department:

The research program concentrates on basic and applied veterinary pharmacology and toxicology and includes the following areas: antimicrobial resistance, molecular biology, molecular aspects of pharmacology, antioxidants, antibiotic alternatives, drug innovation

- Several aspects concerning antimicrobial resistance, such as antibiotic susceptibility, emergence and spread of bacterial resistance, biofilm disruption.
- Veterinary drug innovation and development
- Alternative tools to replace antibiotics, research with polyphenols, pre – and probiotic agents, synergism studies
- Pharmacokinetic and drug metabolism investigations in vivo and in vitro involving primarily isolated cell cultures, cell lines and animal experiments
- Pharmacokinetic-pharmacodynamic investigations
- Target animal safety and efficacy of new drug formulations
- Acute and subacute toxicological studies of chemicals in laboratory animals.

Incorporation of students into the research forms an integral part of the teaching policy of the department. This aim is realized partly through the organization of diploma work.

DEPARTMENT OF PHYSIOLOGY AND BIOCHEMISTRY

Location: Rottenbiller str. 50, 1st floor

Phone: (+36-1) 478-4163

Secretary: Ms Emese FODOR, email: fodor.emese@univet.hu

Head of Department: Mr Tibor BARTHA, DVM, Ph.D., DSc, Professor

Teachers for international students:

Physiology

Mr Tibor BARTHA, DVM, Ph.D., D.Sc., Professor

Mr László V. FRENYÓ, DVM, Ph.D., C.Sc., Professor

Mr Dávid Sándor KISS, M.Sc., Ph.D., Associate professor

Mr István TÓTH, DVM, Ph.D., Associate professor

Ms Boglárka SCHILLING-TÓTH, Ph.D., Senior lecturer

Mr Gergely JÓCSÁK, Ph.D., Research fellow

Mr Krisztián NÉMETH, DVM, Research veterinarian

Biochemistry

Head of Division: Mr Gábor MÁTIS, DVM, Ph.D., Associate professor

Secretary: Ms Szilvia PÁLINKÁS, email: palinkas.szilvia.viktoria@univet.hu

Ms Zsuzsanna NEOGRÁDY, DVM, Ph.D., Associate professor

Ms Ágnes KEMÉNY, M.Sc., Ph.D., Associate professor

Mr Máté MACKEI, DVM, Ph.D., Assistant professor

Ms Evelin KÁMÁN-TÓTH, Ph.D., Research fellow

Ms Rege Anna MÁRTON, DVM, Ph.D.-student

Mr Patrik TRÁJ, DVM, Ph.D.-student

Ms Júlia VÖRÖSHÁZI, M.Sc., Ph.D.-student, Research fellow

Ms Andrea LAJOS, DVM, Ph.D.-student

Ms Fanni HUBER, Ph.D.-student

Compulsory subjects:

Veterinary physiology 1+2, Veterinary biochemistry 1+2,

Research activity of the department:

The main fields include the following: Neuroendocrinological and neuromorphological investigation of hypothalamic energy metabolism, regulatory processes in the handling of thyroid hormones by non-thyroidal tissues; interrelationships of thyroid hormones with other endocrine and immune signalling systems; pathological brain mechanisms on the cellular level related to liver-derived brain diseases, investigation of the concentration of sexual steroids in birds; immunoendocrinological interactions, particularly focused on the immunomodulatory effect of prolactin; cellular mechanism of immunoglobulin transport; molecular biology and amyloid research.

Establishment of novel primary hepatic (e.g. hepatocyte – non-parenchymal cell co-cultures, three-dimensional cultures) and small intestinal (e.g. tissue explants, enterocyte cultures) cell culture models from chicken and swine. Investigations on the cellular effects of heat stress, mycotoxins, and pathogen-associated molecular patterns on hepatic and intestinal cell cultures of chicken origin. Assessing the immunomodulatory and antioxidant action of antimicrobial peptides and plant-, fungi- or bacteria-derived compounds on porcine and chicken cell culture models. Studies on the epigenetic and receptor mediated actions of the short chain fatty acid butyrate in various tissues of chickens.

In its scientific research, the department cooperates with research groups from other nations (USA, UK, Germany, Belgium, Sweden and Austria) and participates in different national and international programs which are set up usually by the Hungarian Academy of Sciences or the European Community.

DEPARTMENT OF VETERINARY FORENSICS AND ECONOMICS

Location: campus, building L, 3rd floor

Phone: (+36-1) 478-4185

Fax: (+36-1) 478-4186

Secretary: igazgatastan@univet.hu

Head of Department: Mr László ÓZSVÁRI, DVM, Ph.D., MBA, Professor

Teachers for international students:

Mr László ÓZSVÁRI, DVM, Ph.D., MBA, Professor

Mr Csaba CSINTALAN, DVM, MBA, Senior lecturer

Ms Krisztina BÁRDOS, DVM

Ms Marietta MÁTÉ, DVM

Ms Ágnes SÁTORI, DVM, Ph.D.

Mr Miklós GYARMATHY

Ms Judit KRISKA-JÁMBOR

Ms Petra ZENKE

Compulsory subjects:

Agricultural Economics; Animal Health Economics and Communication; Forensic Veterinary Medicine; State Veterinary Medicine and Ethics;

Research activity of the department:

- Biosecurity and preventive measures on farms (legal and economic aspects)
- Epidemiology and economics of animal diseases (cattle, swine, poultry, small ruminants, fish, etc.)
- Legal, ethical and economic aspects of hunting
- Soft skills and mental issues in the veterinary profession
- The veterinarian's liability for damages
- Veterinary practice management
- Veterinary business management

HUTYRA FERENC LIBRARY, ARCHIVES AND MUSEUM

Location: campus, building D 1st floor (Reading room) and basement
(Equus study room)

Phone: (+36-1) 478-4226

Secretary: library@univet.hu

Head of Department: Ms Bea WINKLER Library Director

Librarians and staff:

Mrs Katalin BIKÁDI Librarian

Ms Bettina BIRO Librarian

Mr Bence BOZÓ Archivist

Mrs Edit KISS JÓZSEFNÉ OLÁH Librarian

Mrs Katalin MISZORI Librarian

Ms Diána MUDRI Librarian

Mrs Emese OSVÁTH Librarian

Mrs Orsolya PÁLFYNE VARGA Librarian

Ms Laura SÁRKÁNY Librarian assistant

Library services:

- Document services: local use, borrowing documents, printing, photocopying, scanning, interlibrary loan etc.
- Information services and individual or librarian-assisted search: information on the total assets of the library; on the items, addresses, opening hours and services, etc. of other libraries; thematic research for literature; information on literature; databases and periodical packages; information on effective Hungarian and EU laws.
- Services to assist in publication and scientific evaluation: consulting on the use of databases; helping on the calculation of publication and citation indexes; methodology consulting for publication, making bibliographical references; information on the Impact factor and quartile scores of periodicals.
- Website: <http://konyvtar.univet.hu>
- Online Public Access Catalogue (OPAC) with 41k ebooks: <http://opac.univet.hu/>

Information and training for users:

- „Ask a Librarian” – in person or email
- Website: news, opening hours, guide to thesis etc.
- Library courses classroom and/or online tutoring
- Thesis writing course for 4th year students

Registration is free of charge for the students of the UVMB.

You can use your own computer with wi-fi connection in the library area. University citizens may also use virtual private networks protection (VPN) to access databases, e-books and periodicals from their homes.

INSTITUTE FOR ANIMAL BREEDING, NUTRITION AND LABORATORY ANIMAL SCIENCE

Location: campus, building J 2nd and 3rd floor and Rottenbitter u. 50.

Phone: (+36-1) 478-4119

Secretary: balint.anna@univet.hu

Head of Institute: Mr. Zsombor WAGENHOFFER, M.Sc., Ph.D.

Teachers for international students:

Mrs. Kinga FODOR, DVM, Ph.D., Associate professor

Mr. András GÁSPÁRDY, M.Sc., Ph.D., Associate professor

Mr. István HULLÁR, M.Sc., Ph.D., Associate professor

Mrs. Orsolya KORBACSKA-KUTASI, DVM, Ph.D., Associate professor

Mr. Ákos MARÓTI-AGÓTS, DVM, Ph.D., Associate professor

Mr. András BERSÉNYI, DVM, Ph.D., Assistant professor

Mrs. Petra ZENKE, M.Sc., Ph.D., Senior research fellow

Mrs. Nikoletta HETÉNYI, DVM, Ph.D., Research fellow

Ms. Gabriella KORSÓS, DVM, Ph.D. Senior lecturer

Ms. Annamária KISS, DVM, Department veterinarian

Ms Leticia MORAVSZKI, DVM, Assistant lecturer

Ms Orsolya ZORKÓCZY

Ms Edina KÁRPÁTI

Ms Márta BAJNOK

Mr Szilárd SZENTES

Compulsory subjects:

Animal welfare, Veterinary genetics, Animal breeding, Animal nutrition and dietetics, Laboratory animals science and bioethics

Research activity of the institute:

Research in preserving of indigenous domestic species and rare breeds; puberty and nutrition in rabbit; hereditary diseases and their genetic prevention; genetic identification of some

domestic animals (cattle, dog). Sample representation calculation in the domestic animal breeds. Domestication history research (mtDNA, Y) of the cattle and dog. Obesity; body composition, feed additives, nutraceuticals, feeding and dietetics of rabbits, companion animals (dogs, cats), pets and horses. Laboratory animal science and welfare, epigenetics, environmental enrichment, animal welfare and protection.

INSTITUTE OF FOOD-CHAIN SCIENCE

Head of Institute: Mr Miklós SÜTH, DVM, Ph.D., Associate professor

Secretary: Mrs Eszter SZÁSZKAY, email: szasz kay.eszter@univet.hu

Teachers for international students:

Mr Tibor KOCSNER, DVM, Master instructor

▷ DEPARTMENT OF FOOD HYGIENE

Location: campus, building L 2nd floor (offices), building N 1st floor (Food technological Laboratory), building N 2nd floor (Practical room, Food microbiological Laboratory)

Phone: (+36-1) 478-4150

Email address of the department: elelmiszerhigienia@univet.hu

Head of Department: Mr Miklós SÜTH, DVM, Ph.D., Associate professor

Teachers for international students:

Mr Miklós SÜTH, DVM, Ph.D., Associate professor

Mr József LEHEL, DVM, C.Sc./Ph.D., Associate professor

Ms Katalin LÁNYI, M.Sc., Ph.D., Senior Research fellow

Mr László BÚZA, DVM, Ph.D., Senior lecturer

Ms Lívia DARNAY, M.Sc., Ph.D., Senior lecturer

Mr Dániel PLEVA, DVM, Ph.D., Research fellow

Mr Attila NAGY, DVM, Head of Accredited Microbiological Laboratory

Ms Anna BUZÁS, DVM, Ph.D.-student, Department veterinarian

Compulsory subjects:

Food hygiene 1 and 2, Practical course for Food Hygiene (Semester 11)

Elective subjects:

Risk analysis of food safety

Food-technology in the practice

Practical meat inspection

Meat substitutes and alternative proteins in food chain safety Food Hygiene of Catering Sector and Mass Caterers

Research activity of the department:

Food-toxicology: Food security; Chemical and toxicological food safety; Foreign chemical contaminants (pesticide, heavy metals) in food; Drug residues in edible tissues and primary food products of animal origin (milk, eggs, honey); Fate of veterinary medicines in animals and in the environment; Food components; Red and poultry meat quality control; Quality characteristics of foods of animal origin

Food-microbiology: Food safety; Food quality; Safe consumption of food; Food microbiology; Rapid microbiological (testing) methods; Instrumental methods for microbiological detection and rapid/real-time methods for hygienic control

▷ DEPARTMENT OF APPLIED FOOD SCIENCE

Location: campus, building L 2nd floor (offices)

Phone: (+36-1) 478-4100,

Head of Department: Mr Gyula KASZA M.Sc., LL.M., Ph.D., Associate professor

Teachers for international students:

Mr Gyula KASZA M.Sc., LL.M., Ph.D., Associate professor

Mr. Dávid SZAKOS M.Sc., Ph.D., Research fellow

Mr Atilla KUNSZABÓ M.Sc., PhD candidate, Research assistant

Elective subjects:

Risk Communication in Food Chain Safety

Research activity of the department:

Food safety risk communication

Consumer studies in the food chain

Food waste reduction and valorisation, especially in the household level

Social implications of scientific, technological, and legislative developments in the food chain in a European context

▷ DEPARTMENT OF DIGITAL FOOD SCIENCE

Location: campus, building L 2nd floor (offices)

Phone: (+36-1) 478-4100

Email address of the department: dfi@univet.hu

Website of the department: <https://dfi.univet.hu/en/>

Head of Department: Mr Ákos Bernard JÓZWIÁK, DVM, Ph.D.

Teachers for international students:

Mr Ákos Bernard JÓZWIÁK, DVM, Ph.D.

Ms Zsuzsa FARKAS M.Sc., Ph.D., Research fellow

Ms Tekla ENGELHARDT M.Sc., Ph.D., Research fellow

Mr András BITTSÁNSZKY, M.Sc., Ph.D., Senior lecturer

Mr András TÓTH, M.Sc., Ph.D., Senior lecturer

Ms Andrea ZENTAI, M.Sc., Ph.D., Food chain data analyst

Ms Erika ORSZÁGH, M.Sc., Food chain data analyst

Mr Szilveszter Csorba, M.Sc., Food chain data analyst

Mr Máté FARKAS, DVM, Ph.D.-student, Food chain data analyst

Compulsory subjects:

Environmental microbiology

Elective subjects:

Food safety risk assessment

Application of data science in the field of food chain safety

Sustainability aspects in the food chain

Proper diet and gastronomy

The veterinarian's role in ensuring food chain safety

Research activity of the department:

Food safety risk assessment, risk-benefit assessment, analyses of burden of foodborne diseases, food health technology assessment

Emerging risk identification and horizon scanning of the food systems

Food systems data analysis, data mining, text mining, modelling, predictive analytics, big data, and AI applications

International contribution to the European risk assessment domain through collaboration with the European Food Safety Authority

International collaboration with FAO/WHO Codex Alimentarius Committee on Methods of Analysis and Sampling (CCMAS)

Further fees (to be paid via the Neptun system):

- Registering for a subject beyond the registration period: 10 EUR
- De-registering from a subject beyond the registration period: 15 EUR
- Exam beyond the exam period under equitable treatment: 15 EUR
- Application to pay the tuition fee in instalments: 15 EUR
- Extension of the deadline of thesis submission: 15 EUR
- Termination of the student status at own request: 15 EUR
