

Tierarzt (m/w/d) für Kleintierpraxis in Gronau mit Interesse an Kardiologie

48599 Gronau, Deutschland

Über uns:

Our established small animal practice is located in an attractive location in Gronau. Here we - a motivated and cheerful team consisting of 2 veterinarians, 2 TFAs and 2 trainees - take loving and competent care of our four-legged patients. A pleasant working environment and a sensitive approach to our patients and their people are our top priorities. With our services in cardiology, minimally invasive surgery and dermatology, we offer a specialist offering that is recognized nationally. The van de Louw small animal practice has existed for 26 years and has built up a loyal customer base over time. Thanks to the harmonious cooperation and cohesion of the team, we work in a family atmosphere and support each other not only professionally, but also personally. The veterinary practice now belongs to the Veternicum Nesto Group and thus combines the advantages of an overarching professional and organizational framework with the independence and individuality of a practice location.

Stellenbeschreibung:

Experienced management of appointment consultations at an advanced level. Internal examinations using diagnostic imaging (ultrasound/X-ray. Independently carrying out standard operations (dental and soft tissue surgery). Respectful and empathetic treatment of people and animals Team collaboration

Anforderungen:

You have successfully completed a degree in veterinary medicine and have initial relevant professional experience in a small animal practice. Through further education, training and the exchange of knowledge within the team, you always keep your knowledge up to date. You conduct your appointment consultation independently and in a self-organized manner. You have excellent communication skills - due to our international clientele, knowledge of English is an advantage. You look forward to growing on challenging cases, want to develop professionally and can imagine taking over the management one day.

Wir bieten:

A modern, equipped practice with ultrasound equipment for abdominal and cardiac ultrasound, digital x-rays including dental x-rays and our own laboratory. In addition to the usual instruments, the operating area is also equipped for laparoscopy and laser surgery. In addition to providing veterinary care, we are a practice specializing in cardiology and dermatology. The position is linked to further training in the additional qualification of cardiology for small and pet animals. We are a member of the renowned Collegium Cardiologicum. Thanks to flexible working hours, we benefit from a good work-life balance. We pay an attractive salary with various additional benefits.
