

Practical tasks, Anatomy I.

- 1) m. latissimus dorsi, m. trapezius, m. rhomboideus
- 2) m. serratus ventralis, mm. scaleni, pectorales
- 3) flexors of the shoulder
- 4) extensors of the shoulder
- 5) flexors of the elbow
- 6) extensors of the elbow
- 7) carpal flexors, pronators of the radioulnar joint
- 8) digital flexors of the forelimb, pronators of the radioulnar joint
- 9) carpal extensors, supinator of the radioulnar joint
- 10) digital extensors of the forelimb, supinator of the radioulnar joint
- 11) m. sternocleidomastoideus, m. omotransversarius
- 12) muscles of the pelvic girdle
- 13) dorsal muscles of the buttock
- 14) deep muscles of the buttock
- 15) caudal muscles of the buttock
- 16) medial muscles of the thigh, canalis femoralis
- 17) m. quadriceps femoris, m. tensor fasciae latae
- 18) tarsal flexors
- 19) digital extensors of the hindlimb
- 20) tarsal extensors
- 21) digital flexors of the hidlimb
- 22) tendo calcaneus communis
- 23) art. femoropatellaris, tendo m. poplitei, tendo m. ext. dig. longus
- 24) art. femorotibialis, tendo m. poplitei, tendo m. ext. dig. longus
- 25) m. rhomboideus, m. splenius, m. semispinalis capitis, lig. nuchae
- 26) muscles of masitcation
- 27) abdominal musculature, rectus sheath
- 28) canalis inguinalis
- 29) respiratory musculature (without opening the abdominal or the thoracic cavity)
- 30) diaphragm
