

Student Brand Ambassador (m/f/d) for Tierarzt Plus Partner at the University of Veterinary Medicine Budapest

Location: Budapest

Working hours: By arrangement

Start date: Immediately

Introduction

Are you studying Veterinary Medicine at the University of Veterinary Medicine in Budapest and looking to make an impact alongside your studies?

Then become part of our network and support us as a working student by helping to increase the visibility of Tierarzt Plus Partner directly on campus!

Your Responsibilities

- You are our face at the University of Veterinary Medicine Budapest and represent Tierarzt Plus Partner in exchanges with veterinary students.
- You inform students about our network, our values, and our offerings for students (e.g. externships, clinical internships, career opportunities).
- You engage in conversations with fellow students about short-term and long-term clinical internships and provide insights into our network.
- You organize and support on-campus events related to Tierarzt Plus Partner – from information booths to lecture series.
- You work closely with our marketing and recruiting team to develop and implement new ideas to increase our on-site visibility.

Your Profile

- You are studying Veterinary Medicine at the University of Veterinary Medicine in Budapest, ideally from the 3rd semester onwards.
- You are communicative, open-minded, and enjoy approaching and engaging with others.
- You are interested in topics related to modern veterinary medicine, careers, and networking.
- You are reliable, motivated, and enjoy working independently.
- You speak fluent German.

Good Reasons to Join Us

- Flexible working hours that fit well around your studies
- Fair compensation based on a working student contract
- Direct access to our practices – ideal for your own internship or future career perspective

- Room for your ideas and creative freedom
- Close collaboration with a committed recruiting and marketing team

About Us

We are an active network of small animal practices and clinics throughout Germany. Our mission: "Together, we work every day to create the best possible experience for animals and people."

For us, this means continuously improving working conditions for veterinarians and veterinary nurses. For example, we promote family-friendly working hours, modern practice equipment, innovative technologies, and we invest in a network-wide continuing education and training academy. These investments strengthen our practice teams and sustainably improve the experience for animals and clients.

Our community is shaped by diversity within the network. We value one another and take into account the expertise and goals of each team member. To achieve this, we actively promote exchange between practices.

As a network, we are able to address many of the challenges facing the industry, such as staff shortages, high workloads, and outdated structures, while ensuring sustainable animal healthcare.

We are already active in many regions, where we maintain and create veterinary care structures. Since our founding in 2019, Tierarzt Plus Partner has established itself as a nationwide veterinary practice network.

Our Berlin-based central team supports local practice teams in areas such as practice management, marketing, HR, digitalization, and finance. Whether in the central office or directly in practice, we are united by our vision: "Healthy veterinary medicine, lived in partnership."
