

**Call**

Subject: Clinical practice opportunity at the University of Bern

Dear 4<sup>th</sup> and 5<sup>th</sup> year Students!

It is possible to spend **4 weeks at the Horse Clinic of the University of Bern.**

**(The practice cannot be acknowledged as the Clinical Practical Training (CPT) of the 11<sup>th</sup> semester!)**

1. Currently **4 students** can apply for the following period: 4 weeks sometime between **September 2017 – December 2017** agreed with the clinic
2. Good German and/or English is required. Speaking French is an advantage.
3. Applications are collected by the Office for International Relations, University of Veterinary Medicine Budapest. **Applications should be sent by email to Mrs. Zita Csima-Patkós** <patkos.zita@univet.hu> International Relations Officer at our Campus. Applications should contain a **CV** as an attachment. The application deadline is **23<sup>rd</sup> September 2016**.
4. A copy of a valid passport is also needed **at least 8 weeks prior to arrival**.
5. Students not only interested in horses but already actively working with them are needed. Students will also be involved in night shifts and in all treatments so it is really important for the students not to be afraid of horses.
6. **Financials:** Applicants need enough money to live in the capital of Switzerland. Usually a sum of 600-1000 CHF a month is enough for a student however personal preferences, eating habits, etc. might change the amount.
7. **Accommodation:** Unfortunately there are no available beds at the clinic. You need to find accommodation by yourself through the following websites:
  - <http://subnew.unibe.ch/wohnen>
  - <http://www.housingforstudents.ch>
  - [www.vbsl.ch](http://www.vbsl.ch)
  - [www.ums.ch](http://www.ums.ch)
  - [www.HousingAnywhere.com](http://www.HousingAnywhere.com)
8. Applicants should be committed to go for the training in Bern. Students should only apply if they are prepared to work day and night for 4 weeks to learn a lot. Students should not change their mind last minute because their place cannot be filled up and the opportunity will be lost. Only two extern students can come at the same time. Once again, applicants should ensure their training place in time.

I hereby ask the students who are interested in the opportunity and also ~~meet~~ **meet** the conditions to contact me in the consulting hours.

Budapest, 29<sup>th</sup> August 2016

Dr. Tibor Bartha

International Relations Coordinator
