

**1ST YEAR
PROGRAMME AND REQUIREMENTS IN ZOOLOGY
FIRST SEMESTER IN 2018/2019**

Date	Title of the lecture	Lecturer
14 Sept	Introduction. General zootaxonomy Major taxa of Kingdom Animalia	Sándor Hornok
21 Sept	Protozoa („Sarcomastigophora”, Apicomplexa, Microspora, Ciliophora)	Sándor Hornok
28 Sept	Porifera, Myxozoa, Cnidaria, Platyhelminthes	Sándor Hornok
05 Oct	Nematoda, Annelida, Mollusca	Sándor Hornok
12 Oct	Vertebrata I. („Pisces”, Amphibia)	Sándor Hornok
19 Oct	Vertebrata II. (Reptilia, Aves)	Sándor Hornok
26 Oct	Vertebrata III. (Mammalia)	Sándor Hornok
09 Nov	Arthropoda I. (Myriapoda, Chelicerata)	Gábor Földvári
16 Nov	Arthropoda II. (Hexapoda I.)	Gábor Földvári
23 Nov	Arthropoda III. (Hexapoda II.) Echinodermata Microevolution	Gábor Földvári Sándor Hornok
30 Nov	Macroevolution, speciation. Evolution of infectious agents	Sándor Hornok
01 Dec	Basic terms in ecology. Population ecology	Gábor Földvári
07 Dec	Community, ecosystem, biosphere	Gábor Földvári
14 Dec	Ethology	Gábor Földvári

Final exam:

Written exam during the exam period. Three exam dates will be given after consultation with the students. On the exam 84 multiple choice questions will be asked which are based on the lectures and lecture notes. The prerequisite for passing the exam is to answer properly at least 41% of exam questions. This equals to „satisfactory” mark, and better marks will be given proportionately to higher percentages of achievement.

Budapest, 10 September 2018

Dr. Sándor Hornok
