

# Free-time activities and programs for international students

– organized by Students' secretariat for international students at the University of Veterinary Medicine, Budapest

Each semester we have usually 6-8 extramural activities such as field trips / outings to well-known Hungarian places, castles, landscapes to get acquainted with the countryside and what Hungary is famous of (sights, food- and beverages).

**We also organize quizzes:  
related to the university, Hungary  
and Budapest, typical Hungarian food  
and drinks.**

**We have team building programmes -  
especially useful for Freshmen - like lasertag  
games, bowling - pool billiard competiton,  
escape room games.**
