## 2<sup>nd</sup> call for application for students at the University of Veterinary Medicine

### Short-term scholarship in the neurosciences

Within the framework of the EFOP-3.6.2- 16-2017-00008; title: *The role of neuro-inflammation in neurodegeneration: from molecules to clinics*, the University of Veterinary Medicine announces research grants (scholarships) of 6 months for undergraduate and PhD students. In the field of neuroscience, a total of 3 students can receive a scholarship for 6 months. Following the completion of the application period, the scholarship of the best performing students can be extended in order to continue the active participation in the research.

Proposals received will be judged by a jury of local professional and responsible executives of the nominated grant.

Deadline for submission of applications: **12'00 11th February 2019**

Methods for submitting applications: **by submitting the data sheet of the Student**

**Application - Neuroscience as defined therein**

Number of supported applications: **3**

Amount of scholarship: **net 50 000 HUF / month / student (initially for 6 months)**

Decision about the applications: **18th February 2019**

Starting date of the research: **1st March 2019**

When submitting applications, it is a prerequisite for the applicant to explain the importance of the research topic for later social, national and international utilization

The list of winners will be published by the University at <http://www.univet.hu/hu/egyetem/palyazati-projektek> website.

Further requirements for the applications:

Publication of 1 literature review/original research article in The Hungarian Veterinary Journal in Hungarian and/or English (in a non-strictly veterinary subject another peer-reviewed scientific journal is also acceptable and it may not be a review); active participation on a national/international scientific conference with a poster or lecture; Participation on the TDK conference in the research topic within one year after the end of the research period (if applicable).
