Teachers: ATA – Attila Arany-Tóth
 DMP - Miklós Pál Dunay
 MP - Péter Molnár
 SCS – Csilla Simon

Practical trainings take place in the surgery practical room in building B. Attendance the practical trainings is strictly obligatory. Missing practical training is just accepted in case of medical reasons or officially scheduled university activity (e.g. clinical shift). Changing group schedule is not allowed in order to keep similar group sizes! The students should wear a lab coat in every practice. Labs starts with a short oral or written entrance exam of the current practical material, the result of which will be appreciated during the creation of the offered practical grade at the end of the semester.
