

Application and Admission

General Requirements

The University of Veterinary Medicine Budapest seeks students with appropriate academic qualifications, good command of English, and strong motivation to study and practice veterinary medicine. There is an entrance examination that students need to pass in order to be admitted. The entrance examination aims to test (in oral and written form, online or personal) competency in the English language, also in relation to the academic subjects, which are Biology and Chemistry.

Students who wish to apply to the Stipendium Hungaricum Scholarship need to apply through www.apply.univet.hu/application between December and January each year.

Application Requirements

Applications are accepted on a rolling basis from 1st January until 30th June (in cases of vacancies later). Documents need to be uploaded to apply.univet.hu/application. Your local representative may assist you at any steps (for the list of representatives [please click here](#)) or in case you do not have one, you should directly upload your documents.

Applications are considered to be complete only if the following two criteria are fulfilled:

- Application form completed and documents are uploaded
- Application fee (EUR 200) is paid either to the local representative or through the online application system.

This European-standard university still operates on small scale and it enrolls only a limited number of students each year preserving high academic values while maintaining a family atmosphere in the historical campus located in the middle of Budapest. The predecessor of the current university was established in 1787 as Chair of Animal Healing at the Faculty of Medicine of the Budapest University shortly after the foundation of the first veterinary school in the world (in Lyon in 1762). After a number of transitional statuses, the institution has finally been given an independent university rank and earned an outstanding international reputation.

In the 1990's a Field Station and Large Animal's Clinic was built outside Budapest providing a bigger supply of horses and cattle for the students in the clinical years. Since the foundation of the international programs in 1989 around 2500 international students were enrolled.

The university is accredited by the European Association of Establishments for Veterinary Education (E.A.E.V.E.) and the diploma of the university is accepted in all EU countries and several other countries as well.

Documents to be submitted

- Secondary school leaving certificate
- Copy of passport or ID
- Curriculum Vitae
- Medical certificate
[Download Medical Report Sample](#)
- Letters of Recommendation (optional)
- Motivation letter

If you do not have any one of those documents for any reason please tell us of this reason and also when you think you can obtain them. For example: you have not yet received your leaving certificate as you have not yet finished your high school studies. Please tell us when do you expect to receive this document. Email us at: info@vethungary.com

Entrance Examination

The examination will test competency in **English** in general and also in relation to academic subjects like **Biology and Chemistry**. The exam consists of written and oral elements. For further details please consult with our [website](#).

Exemption from entrance exam can be obtained for

- Transfer students from universities in similar fields of studies
- British A-level certificate with high scores in Biology and Chemistry
- IB diploma with high scores in Biology and Chemistry
- French veterinary schools (“Classe Préparatoire BCPST”) attendance

All exemptions are subject to the decision of the University Admission Board.

Transfer from other Universities

Applicants who have already graduated or completed a section of the curriculum at another University in any field of science might be admitted on the bases of their previous education and can receive exemptions or credit transfers. These transfer students might have the option of being exempt from the entrance exam or even allowed to be exempt from some / many subjects during their studies at our university.

Please upload your University Transcript (with grades) or your degree/diploma along with the other required documents for evaluation by the University Admission Board.

All exemptions are subject to the approval of the University Admission Board.
